- The track is partially or totally blocked
- There may be marshals / persons working on the track
- Maximum speed **60 km/h** is permitted
- Be prepared to stop or to change direction
- Overtaking is prohibited

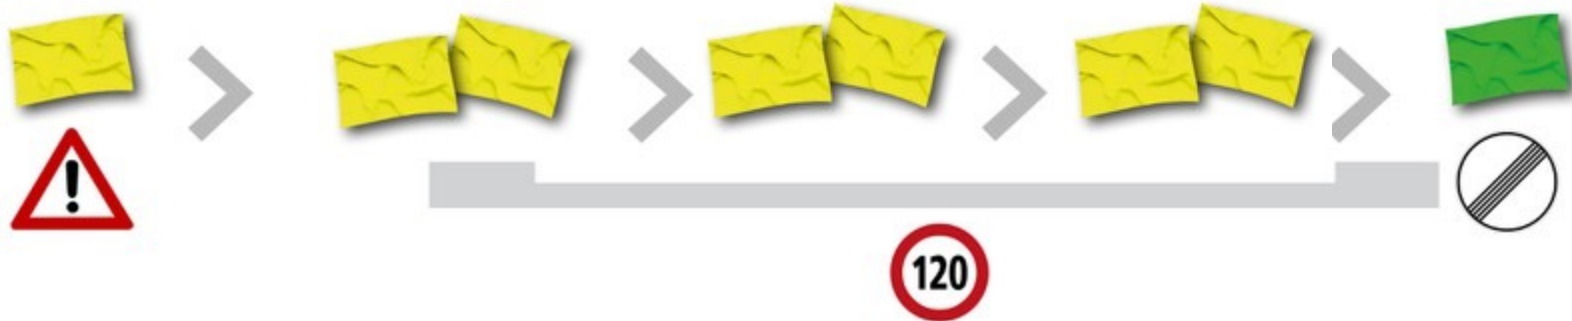

YELLOW & CODE 60 RULES

YELLOW & CODE 60 RULES

1. variant: max. 120 kph up to the green flag

First incident

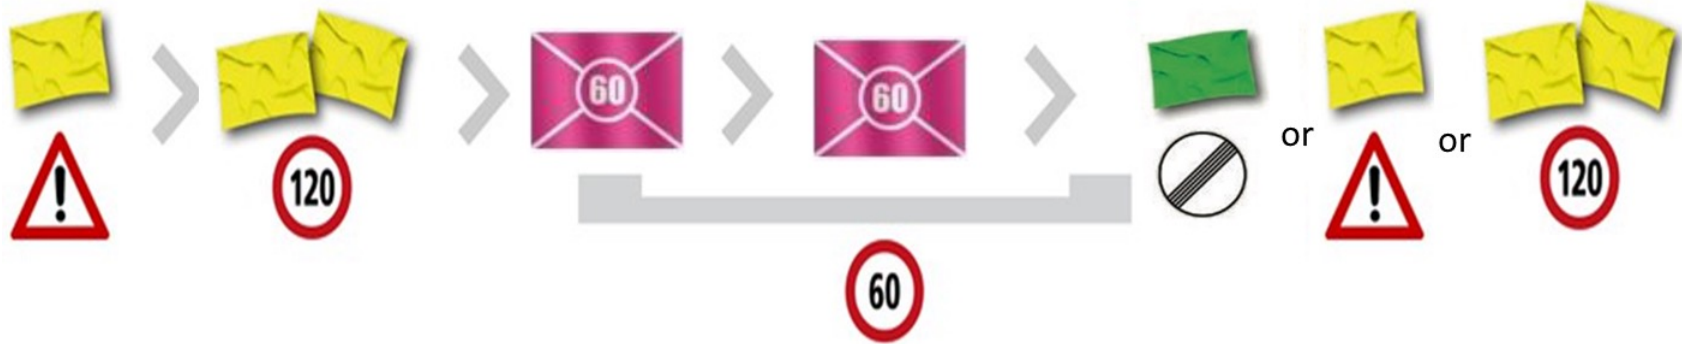

Second incident

YELLOW & CODE 60 RULES

Second exception max. 60 kph ! Ending with either a green / yellow or double yellow flag

First incident

Second incident

YELLOW & CODE 60 RULES

In the case of a yellow flag / double yellow flag / Code60, all vehicles drive behind each other.

It is not allowed to drive side by side.

FLAGS & SIGNALLING

MONITORING GPS

Speed monitoring for double yellow flags/Code60 is carried out using the proven GPSauge system.

Protest against the measurement method or the functioning of the GPS system are not permitted.

YELLOW & CODE 60 RULES

Passing a tow convoy inside a Code 60 zone is permitted while observing the 60 kph limit.

You are not allowed to overtake other competitors

FLAGS & SIGNALLING

- If DMSB-cars are on the track, the marshals will show a white flag
- If DMSB-cars are stationary on track or rescue intervention is in progress, marshals will show a yellow flag
- If Towed trains/rescue trucks are on the track, marshalls will show a yellow flag

SIGNALLING AT NIGHT

- No blue flags will be shown during the night
- Instead of flags a limited choice of reflecting boards is available for the marshals: yellow, yellow/red, green, white, CODE 60 and yellow glow sticks
- Marshals are showing the white flag during the formation lap

- Respect each other!
 - > fast – slow
 - > slow – fast
- Choose a clear line!
- Warning! The whole race is controlled by GPS
(double yellow = 120kph / CODE 60 = 60kph)!

Indicate to the direction you want to go:

- Indicator to the left – go or stay left
- Indicator to the right – go or stay right
- No indication – stay on the racing line

- In case of an accident or breakdown the driver has to stay near the car (behind the barriers).
- Do not leave the car overhasty.
- Follow the instructions of marshals.
- Use lights and high-beam like on public roads. Avoid dazzling other drivers.
- High-beam is forbidden on the start finish straight and in the pit lane!

- Speed limit 60 kph
- No smoking
- Access only with valid tickets
- Regard to the clothing prescription
- No children
- No animals
- Follow the instructions of marshals and security

PIT LANE

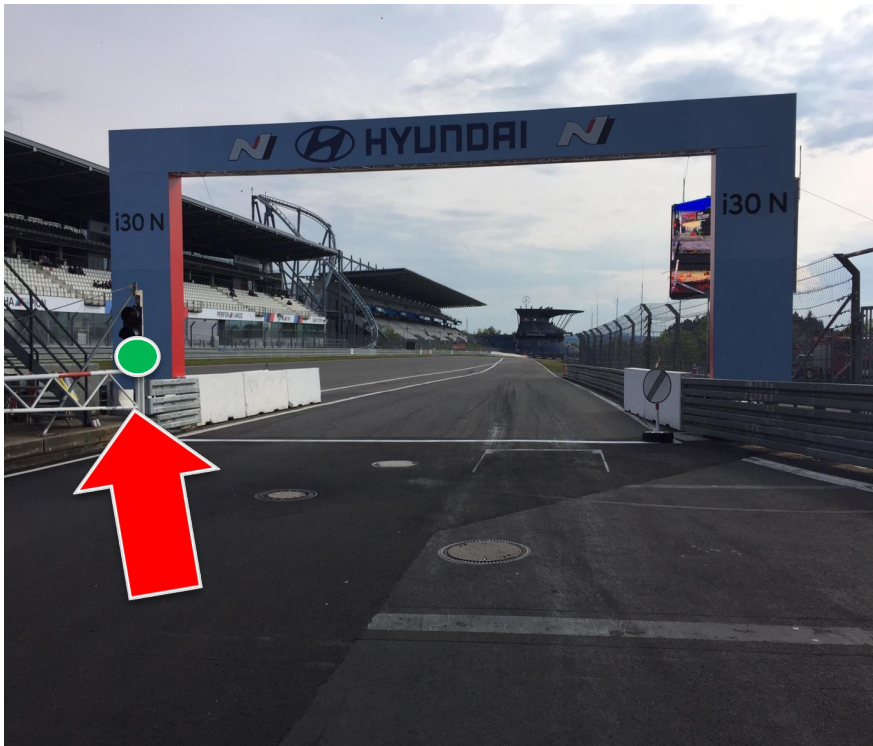

PIT LANE / WHITE LINE

It is forbidden to cross the white line on the exit of the pitlane!

START of SESSIONS

The session will be started by switching the light at the pitlane exit to „**GREEN**“

Change of drivers / order of the entered drivers.

When changing the driver, the team / drivers are responsible for setting the timekeeping transponder to the corresponding ID of the driver driving the vehicle.

Up to 2 hours before the end of the race driver can be logged off with a written message to the clerk of the course.

STARTING GRID

- Allocation by classes into three starting groups
- Coloured stickers will indicate the starting group and will be available at the administrative check. Put this sticker on left top of the windscreen.
- All Cars have to take one lap using the GP-circuit to get in the grid. Exception: cars in the first starting group may also take their positions directly.
- Scooters and other vehicles are strictly forbidden
- Follow the instructions of marshals and security

WAY IN TO THE GRID

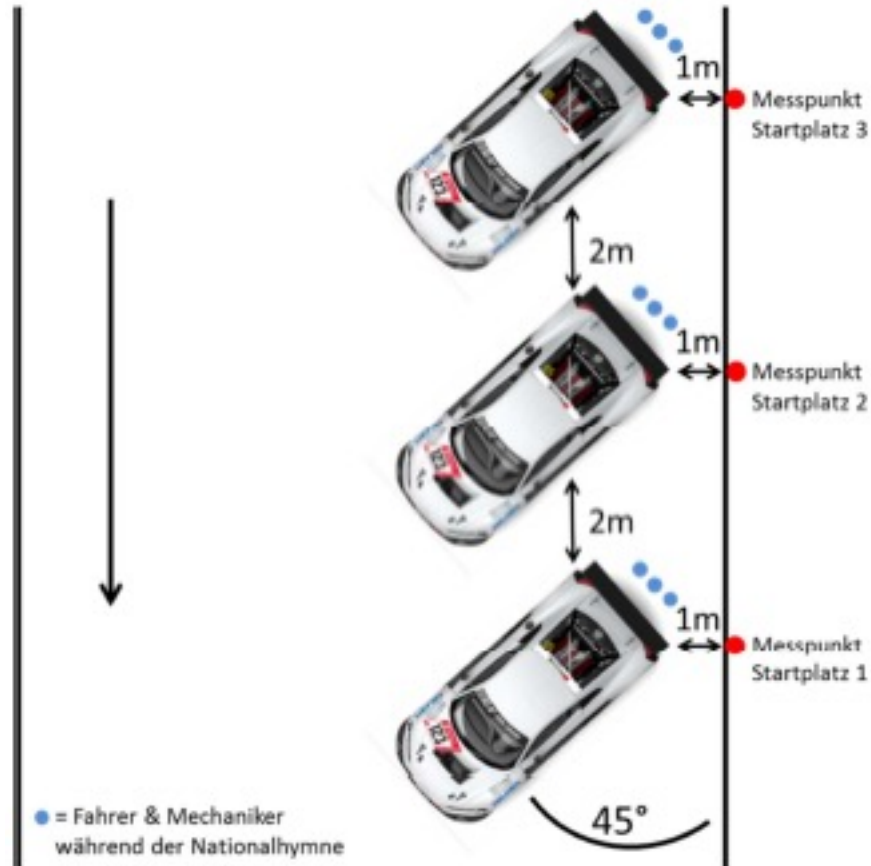

V-Classes

All V-Class vehicles are weighed on the way to the starting grid.
In the RAVENOL-curve, please leave the track on the right side of the pylon alley and stop at the weighing station for the measurement.
The vehicle can then be driven onto the starting grid.

Scale: 
Pylons Alley: 

STARTING GRID STARTING GROUP 1

FORMATION LAP

- It is forbidden to stop on the track and to allow bigger gaps (max. two vehicle lengths between the cars)
- Positions will be checked by judges-of-fact and video
- After the leading car has pulled out, the cars will be guided by the pole position car towards the start line with a constant speed in a closed formation in 2 lines

START

- The race is on as soon as the light on the start line turns green, overtaking is allowed from this moment on only
- A second formation lap may be possible (e.g. due to weather conditions)

PIT ENTRY DURING RACE POST 207

Pit lane entry is possible from the Nordschleife!
To enter the pitlane: Keep right after marshal post 207

- Pit lane entry is possible from the Nordschleife. In addition, the entry from the GP-circuit (Hyundai curve) is available as well (e.g. in case of technical problem, but this is connected with a loss of time / note to time keeping)
- Cars may be weighed (related time credit will be allocated)
- When the respective 24 hours have expired, the leading car will receive the chequered flag when it crosses the finish line (not in the pit lane).

OFFICIAL CARS / INTERVENTION CARS

- All official cars will be driven with revolving yellow warning lights
- Cars of the DMSB will be handled as competitors
- There will be no Safety-Car in operation

INTERVENTION CARS

- Cars of the DMSB will be handled as competitors
- There will be no Safety-Car in operation
- See video about Intervention-Cars

- Information channel of Race Control: page 7 of the official timing monitors, Penalties and information will be shown there.
- Penalties will be sent via email.
- Check the radio from the race director.
