SPORTING REGULATIONS

2023

AN EVENT ORGANIZED BY:

6 ORE DI ROMA DRAFT SPORTING REGULATIONS 2023

FOREWORD

The 6 ORE DI ROMA is governed by the FIA International Sporting Code and its appendices (hereinafter "the Code") and the Technical Regulations for GT4 Grand Touring Cars. It will be run in conformity with these Sporting Regulations specific to the Event, as well as clarifications and Bulletins issued by the SRO Sporting Board during the season in accordance with Article 2.1 of these regulations.

SRO Motorsports Group (hereinafter referred to as "the Promoter"), will organise the 6 Ore di Roma (hereinafter "the Event") reserved for RACB-homologated Grand Touring cars (hereinafter "GT4").

Certain aspects relating to the application of the Event regulations have been entrusted to the SRO Sporting Board and SRO Technical Board, as defined in Appendix 5.

Terms used in these regulations such as 'Event' and 'Competition' are as defined in the International Sporting Code Article 20 (Definitions). Within these Sporting Regulations, terms referring to natural persons are applicable to all genders.

1. REGULATIONS

1.1 The final text of these Sporting Regulations shall be the English version, which will be used should any dispute arise as to their interpretation. Headings in this document are for ease of reference only and do not form part of these Sporting Regulations. The official language of the International Sporting Code is stated within that document. Any breach of these regulations may be reported to the Stewards and penalties applied.

1.2 These Sporting Regulations come into force from 1 September 2023 and replace all previous Sporting Regulations regarding this Event.

1.3 Not applicable

1.4 These regulations are subject to changes and additional safety measures in accordance with any safety protocols issued by SRO and supplemented by regulations set by the various Governments and National Sporting Authorities (ASNs). Any such changes or measures will be communicated to the Teams through the Appendix 1 documents and/or Sporting Notes at each Event.

1.5 Any revisions to the Sporting Regulations communicated via an official Sporting Note, Technical Note or other bulletin, or given in the Appendix 1 Supplementary Regulations for an event, will take precedence over the original regulation(s). The Team Managers' and Drivers' Briefing Notes, as well as associated presentations, are formal documents which must be complied with.

2. GENERAL UNDERTAKING

2.1 All Drivers, Competitors and Officials participating in the Event undertake, on behalf of themselves, their employees and their agents, to observe all the provisions of the Code and the present Sporting Regulations, together with any supplements or amendments of the Code, the GT4 Technical Regulations issued by the RACB, Bulletins and Clarifications from the SRO Sporting Board issued for the Event. Bulletins will be approved by the parent ASN, which is ACI Sport.

3. GENERAL CONDITIONS

3.1 It is the Competitor's obligation to ensure that all persons concerned by his entry observe all the requirements of the Code, the applicable Technical Regulations, the present Sporting Regulations, the Appendix 1 to each Competition as well as Bulletins and Clarifications from the SRO Sporting Board issued

during the season.

3.2 Each Competitor must nominate his representative(s) in writing on the entry form. If a Competitor is unable to be present in person at the Event, he must nominate his representative in writing to the Stewards. A person having charge of an entered car during any part of the Competition is responsible jointly and severally with the Competitor for ensuring that the requirements are observed.

3.3 Competitors must ensure that their cars comply with the conditions of eligibility and safety and with the Technical Regulations throughout the Competition.

3.4 The presentation of a car for Scrutineering will be deemed an implicit statement of the conformity of the car.

3.5 All persons concerned in any way with an entered car or present in any other capacity whatsoever in the paddock, pits or pit lane, or on the track, must wear an appropriate pass and clothing at all times as stated in Article 12.2. Any infractions will result in penalties.

3.6 All Drivers, Competitors and Officials participating in the Event must hold current and valid licences. For Drivers, the minimum requirement is an FIA International Grade D (ITD - C) licence, or equivalent licence such as the International Licence for Drivers with Disabilities and, where applicable, valid licences and/or authorisations issued by their ASN. The Drivers must be in possession of a current medical certificate of aptitude and permission from their ASN to compete in the relevant international Competition.

3.7 Results remain provisional until all sporting matters and Technical Scrutineering are completed. This includes the checking of any onboard cameras when applicable.

Until the final classification is published, all Teams must have one nominated person available to be summoned to the Stewards to represent the competitor and to sign for any decisions. The Team Messaging application must be monitored until the final classification is issued.

Should the person designated as Team Manager for the Event not be available until results are final, the Team should nominate one or more additional personnel who are able to represent and sign for the Competitor. This person or people must be listed on the sheet that will be available at the Team Managers' administrative checks. Any changes or additional personnel after this point should be notified directly to the Stewards.

4. ELIGIBLE CARS

4.1 Competitions are first and foremost reserved for GT4 Grand Touring cars homologated by the RACB for SRO as defined by the applicable Technical Regulations.

In exceptional circumstances, the Promoter reserves the right to accept "Guest" cars, whose Technical Form is temporary or incomplete, or which are recently out of homologation.

4.2 All cars must be in conformity with the list of safety features according to Technical Regulations for GT4 Grand Touring Cars.

5. EVENT COMPETITIONS

5.1 The Event will have the status of a restricted international Competition, including administrative checks, Technical Scrutineering, all free practice and qualifying sessions and the race.

5.2 The Event is made up of one race with a maximum duration of six hours.

5.3 The leader will be shown the chequered flag when he crosses the control line (the Line) at the end of

the lap during which the prescribed period ends. If the leader is stopped, the chequered flag is presented to the next-best placed car running on the track.

5.4 The Line is a single line which crosses both the track and the pit lane, except for the end of the race where a driver must take the chequered flag on the track in order for that lap to be taken into account when calculating the total distance covered by that car.

5.5 Not in use

5.6 The definitive date of the Event will be published by the Promoter before September 1st 2023. However, in case of force majeure, the Promoter reserves the right to modify this date as well as the format of the Event.

5.7 The Event may be cancelled in case of force majeure, or with the agreement of the Hosting ASN, the Parent ASN and the Promoter. Claims for loss or damages by Competitors shall be excluded in all such cases.

5.8 Competitors are responsible for ensuring there are no travel or other restrictions which would affect their participation in the Event.

6. PRIZE GIVING

Representatives of the winning Competitors as well as the Drivers finishing in the top three positions in the classification of the Event, must make themselves available for the end of season prize giving ceremony which will take place in London on Friday November 24th. All Competitors shall use their best endeavours to ensure that their Drivers attend as aforesaid.

7. Not in Use

8 ORGANISER, ORGANISATION AND INSURANCE

8.1. An application to organise the Event will be made to ACI Sport.

8.2 The information set out in Appendix 1 to the present regulations will be submitted to ACI Sport at least 30 days before the Event.

A Visa will be issued by ACI Sport, provided that all documents required by the present regulations have been duly sent to them and that they are in conformity with the regulations applicable to the Event.

8.3 The Organiser of the Event must ensure that all Competitors, their personnel and their Drivers are covered by third party insurance.

8.4 Thirty days before the Event, the Organiser must send the Promoter details of the risks covered by the insurance, which must comply with the national laws in force. This insurance certificate, written in the language of the country as well as in English, shall be made available to the Competitors. The sum insured must be a minimum of 6.000.000 euros (six million euros)

8.5 Third party insurance arranged by the Organiser of the Event shall be in addition and without prejudice to any personal insurance policy held by a Competitor or by any other natural person or legal entity taking part in the Event.

8.6 Drivers taking part in the Event are not third parties with respect to one another.

9 OFFICIALS

9.1 Officials for the Competition will be listed in the Appendix 1 to these regulations, which will be submitted to ACI Sport for approval.

10 CONDITIONS FOR THE PARTICIPATION OF DRIVERS AND COMPOSITION OF THE CREWS

10.1 Driver Line-ups per Category

a) Silver Cup

Driver categorisations will be applied, and the following maximum pairings will be accepted:

- Silver / Silver /Silver

b) Pro-Am Category

Driver categorisations will be applied, and the following pairings will be accepted:

- Gold / Bronze /Bronze
- Silver / Bronze / Bronze
- Platinum/Bronze /Bronze with permission from the Sporting Board.

Platinum /Bronze /Bronze pairings will be considered on a case-by-case basis and any such approval may be subject to additional time penalties or driving time restrictions.

c) Am Category

Driver categorisations will be applied, and the following pairings will be accepted:

- Bronze / Bronze /Bronze

Two-driver line-ups may be authorised with permission from the SRO Sporting Board, on condition that one of the drivers is Bronze. In this case, additional time in the pit stop or restrictions on driver time may added by the Sporting Board. Decisions will be made on a case-by-case basis and evaluated before and during the Event.

10.1.1 The composition of the crews must be sent to the Promoter at least 14 days before the start of the Event. Any modification to a crew is prohibited after the end of the administrative checks except in case of force majeure acknowledged by the Stewards.

10.1.2 Not in use

10.2 Not in use

10.3 Not in use

10.4 Driver Categorisation

10.4.1 Drivers wishing to compete in the Event must be categorised by the FIA. Drivers who are not categorised must send in a record of achievements to the FIA at the latest fourteen days prior to the beginning of the first Event in which he or she wishes to take part, using the link available via the FIA website under <http://www.fia.com/fia-driver-categorisation>

The definitions of the categories, the Driver Categorisation List and the application form can be found on the FIA website.

All decisions concerning the categorisations are taken under the authority of the FIA Drivers Categorisation Committee.

The list of Competitors allowed to take part in the Competition will indicate the category attributed to each Driver. Drivers who have not been categorised will not be allowed to take part in the Event.

10.4.2 Temporary Categorisation

The Stewards will give a temporary categorisation to Drivers who announce themselves with their record of achievements after the Event has already begun. A fee of 200 euros will be payable to the SRO Motorsports Fund for any such requests for late categorisation. Any such temporary categorisations will only be valid for this Event and will not constitute an FIA categorisation.

10.4.3 Derogations

For the purposes of this Event the SRO Sporting Board retains the right to make any temporary amendments to the FIA Categorisation of any Driver according to the criteria of GT4 competition. Any Drivers given a temporary categorisation derogation will be indicated in the entry list with an asterisk.

10.4.4 Double Derogations

No more than one derogation will be given to any line-up of Drivers competing in the Event. This includes derogations to run with two Drivers. (ie a line-up with permission to run with two Drivers cannot include a driver with a Derogation.)

10.4.5 Penalties and Restrictions

Drivers with derogations may receive additional restrictions including additional time during the pit-stop or restrictions on total driving time, which will be decided by the SRO Sporting Board.

Additionally, drivers whose categorisation is listed on the FIA website as Provisional or Subject to Review may be subject to additional time or weight penalties on decision of the SRO Sporting Board, in accordance with articles 10.4.6 and 10.4.7

10.4.6 Monitoring of Derogations

The performance of any Drivers who have received a derogation will be monitored by the SRO Sporting Board. Derogations may be adjusted at any time without notice.

10.4.7 Pit Stop Time Penalties

Any driver with a derogation may be given a pit stop time penalty which must be served during one or more of the pit stops during the race in accordance with Article 16.4.a. The mandatory pit stop time will be extended by the time of the penalty and any infractions will be notified to the Stewards.

11 COMPETITORS' APPLICATIONS AND CONDITIONS OF ENTRY

11.1 Not in use

11.2 Not in use

11.3 Conditions of Entry

Full-season and race-by-race Competitors are accepted.

A Competitor may enter a maximum of three cars per category in the Event under any one Competitor's licence.

Application forms to enter the 6 Ore di Roma can be downloaded from the Teams section of the website www.gt4series.com and will be available on www.6orediroma.com

Entry in the Event is set at €7 000 per car per Competition (seven thousand euros) per car.

This Event entry fee includes the mandatory Sporting Kit and the mandatory Sustainability Fee.

The deadline for entries is fourteen days before the start of the Event.

c) A Paid test session may be available before the Event. This is not mandatory. Please see article 30.3 and appendix 4 for details.

d) Entries are not transferable and entry fees are not refundable. All amounts are excluding VAT. VAT may be added according to applicable rules depending on the Competitor's tax status.

e) The Promoter reserves the right to refuse any applications.

- f) The entry form must be fully completed.
- g) All Competitors must abide by the guidelines set down in terms of sponsorship from Event partners in regard to car livery, Team and Driver overalls. The Promoter reserves space on the cars and overalls of all Competitors (see Appendix 3). No sponsorship from companies associated with the manufacture, re-treading, sale or distribution of tyres is authorised.
- h) A Team is defined as the cars entered under a specific Competitor's licence. A Team may use a Commercial Team name which is different from the Competitor name (maximum of 32 characters). No two Teams may use the same Commercial Team name. Should cars be entered under a Driver licence, the driver may designate a Team name under which they will compete.
- i) Cars entered under different licenses should not have similar liveries (that is, overall design theme and layout). Should two Teams have liveries that cannot be easily distinguished by marshals and Officials, they will be required to make sufficient alterations before the first Competition in which they take part. Within any Team, cars must have easily distinguishable features. Any logo on doors, bonnet or roof which could be confused with a car's racing number is prohibited.

12 PASSES, ACCESS TO THE SITE AND ARMBANDS

12.1 Any participant present in any capacity whatsoever in the reserved areas must wear their pass in such a way that it is clearly visible. The Promoter alone is empowered to issue passes. A pass may be used only by the person and for the purpose for which it was issued.

12.2 The following passes will be issued:

Full Access Passes: access to the whole site, including pit garages, pit lane and pit wall, with no restrictions in terms of clothing. Nevertheless, shorts and open shoes are forbidden in the pit lane.

Pit Lane Passes: general entrance, access to the paddock, pit lane and starting grid. Access to the pit wall signalling area is limited to working Team members only in the area reserved for the Team. During sessions, access to the working lane is restricted to persons wearing fireproof overalls and helmets. Shorts (including long trousers rolled up), sleeveless or short-sleeved shirts and open shoes are forbidden in the pit lane and on the pit wall at all times. Incorrect dress will be reported to the Stewards and will result in penalties.

Driver Passes: general entrance, access to paddock, pit lane, starting grid and pit wall signalling area as for Pit Lane passes above, as well as to the Media Centre.

Paddock Passes: general entrance and access to the paddock.

Media Passes: general entrance, access to the paddock and media centre. Access to track roads and pit lane is only authorised with appropriate sticker and tabard as stated in media briefing documents.

Misuse of Passes: Passes may only be used by the person for whom they are intended and for the purpose for which they have been issued. Any falsification or duplication of passes, or any passes being used by other persons, will result in confiscation of the pass and will result in the Competitor being fined a minimum of €5000 as well as any other penalties from the Promoter and/or the Stewards which can go as far as disqualification.

12.3 Access

Teams must not exclude participants with Full Access, Organisation or Media passes from their pit garages or awnings and should not produce or distribute additional passes which supersede those passes distributed by the Promoter. Team members are restricted to the area of the pit wall opposite their pit allocation. Officials and the Promoter's representatives with Full Access passes will have access to any Team areas within the circuit boundaries.

12.4 Armbands

The following armbands will be issued for use during pit stops. Per car, the following will be issued:

- One White armband for the car controller
- Four green armbands for the tyre changers and refueller
- Three orange armbands for other personnel in the working lane, bearing in mind that a maximum of four mechanics may be in the working area at any one time.
- One Blue armband for the Vent Man if applicable

Armbands may only be worn on the arm. Only one armband may be worn at any time. Any infractions may be reported to the Stewards.

Red armbands will be issued to industry personnel. Industry personnel must abide by the pit lane clothing instructions.

13 DRIVER DESIGNATIONS AND CHANGES OF DRIVER

13.1 Driver Numbers and Limits

a) Throughout the Event no fewer and no more than 3 (three) Drivers may drive one and the same car (except as provided for in Article 13.2 e) and f).

Drivers must be designated as Driver 1, Driver 2 and Driver 3 before the end of the administrative checks.

Driver 1 will compete in Q1

Driver 2 will compete in Q2

Driver 3 will compete in Q3

For each car, the Team Manager of each Team must designate the starting Driver for the race according to the deadline stipulated on the official timetable.

b) Two-Driver pairs

Two drivers may be allowed to compete for a Team, subject to the approval of the SRO Sporting Board, on condition that one of the drivers is Bronze.

In the Silver Cup, two-driver pairings are not allowed except in accordance with 13.2 f) below

In Pro-Am and Am Cup, the Bronze driver must compete in two qualifying periods. The Team may choose which sessions at the time of driver nomination for Qualifying. The car must compete in all three qualifying periods.

The 'Pro' driver, who may be Silver, Gold or Platinum, must compete in one qualifying period plus driver a maximum of 120 minutes during the race (extended to 125 minutes if a Safety Car or Full Course Yellow period is in operation at the end of the second stint.)

Should the line-up in Pro-Am or Am wish to compete with two Bronze drivers, the Competitor may choose which driver competes in two qualifying periods and which will compete in one, unless this has been specified on the document from the SRO Sporting Board giving permission for the two-driver line-up. Limits on the driving time per driver may be imposed. This information will be given in the document of approval from the Sporting Board and may be amended at any time during the Event, up to one hour before the start of the race. There must be at least one driver change during the race.

13.2 Driver Changes

- a) During the Event, a Driver cannot change from one car to another.
- b) Each Driver may only be nominated to drive one car.

- c) A change of Driver may only take place before the start of free practice and with the consent of the Stewards.
- d) Any changes in the Driver order once published may only be authorised by the Stewards following the submission of a written request from the Competitor. Such an authorisation will only be given in exceptional circumstances or in cases of force majeure. Failure to abide by the declared driving order will be reported to the Stewards who may issue penalties as they see fit.
- e) After the start of free practice, any Driver changes will only be accepted in cases of force majeure and subject to the approval of the Stewards, who may impose any restrictions, conditions or penalties as they see fit.
- f) Should the Stewards give permission for a Car to race with two drivers due to reasons of force majeure occurring after the Event has started, the car will remain in the category in which it was originally entered. A time penalty may be given which must be served at the start of one or more pit stops.

13.3 Driving

The Driver must drive his car alone and unaided.

14 INSTRUCTIONS AND COMMUNICATIONS TO COMPETITORS

14.1 The SRO Sporting Board, Stewards, Race Director or Sporting Director may give instructions to Competitors through Sporting Notes, Bulletins or other documents.

14.2 All classifications, starting grids, and results of practice and the races, as well as all decisions issued by the Officials, will be posted on the Digital Notice Board and where appropriate the Official Notice Board.

14.3 All Teams must be connected to and are required to monitor the 6 Ora di Roma Team Messaging System at all times during each Event.

Race Control will not respond to enquiries about other Competitors. If a Team's car is involved in an incident, an incident report form can be filled in and sent via the Team Messaging Application.

As much detail as possible is required for an incident report form to be looked at by the Race Director and if necessary, to help with the investigation carried out by the stewards.

Examples of permitted reports to Race Control are:

- a) Any information requested by Race Control or the Race Director
- b) Reports of on-track issues, e.g. contact between cars, passes under yellow. These reports must include time of incident, location on track, other cars involved and the specific concern. Vague reports will receive lower priority or may be discounted
- c) Requests for cars to be released from Parc Fermé conditions (after an incident)
- d) Driver ID transponder issues
- e) Informing Race Control of pit stop tolerance

Note that reports are only accepted for incidents concerning or involving the Team's own cars. Reports in which the Team is not involved will be discarded.

14.4 Any decision or communication concerning a particular Competitor must be given to him as soon as possible and receipt must be acknowledged. The Team Messaging System may be used to send summons and documents and for Teams to confirm receipt.

14.5 All Teams must have a radio tuned into the Race Control frequency, which will be used for communication from the Race Director to the Teams. Please see Appendix 8 for the provisional 2023 frequencies. A radio check will take place at the start of each day and Teams must reply using the Team Messaging System. Teams must be listening to the frequency from 15 minutes before the start of each session to the end of the session or the opening of Parc Fermé for qualifying and races. Teams should not use this frequency for any other information. Information given on the Race Director's radio frequency is in addition to messages given on the timing monitors. All such messages, whether written or oral, must be adhered to.

14.6 Radio Communications between Team and Car: if so requested, each Team must provide the Promoter with the radio frequency and access codes used for the communication between the Team and the Driver in each car. Each Team will authorise the Official TV production company to use selected recordings of radio conversation between the Team and Drivers. Such material may be used without limitation for the television coverage of the Event. If necessary, for safety reasons, the Officials of the Event may also listen to the conversations.

15 UNSPORTING BEHAVIOUR

15.1 Any Incident in the paddock, pit lane or the track, such as provocative acts of any kind, verbal or physical threats, inappropriate comments on social media networks or unsportsmanlike behaviour, or any action or occurrence in relation to any Event(s) or Competition(s) that could be considered to be in contravention of the spirit of the Event, which is committed by a Team member or a person under the responsibility of a Competitor, may be reported to the Stewards who will take any action they consider suitable. The Team will be held responsible for the actions of the persons within their entourage and may be penalised accordingly.

In particular, penalties may be awarded for offences affecting the security of the event or Competition and may include:

- Drop of grid positions
- Deletion of all qualifying times
- Stop-and-go penalty of a duration up to 5 minutes

15.2 Competitors are expected to abide by any regulations or instructions issued at the Event in order to maintain cleanliness and safety in the Paddock and Pit Lane. They must endeavour not to waste water, electricity or other resources. Oil and other liquids must not be allowed to drain into the environment and must be deposited in areas designated for that purpose. Tyres must be kept by the Competitor or returned to Pirelli when applicable. Any Competitor failing to abide by these measures will be reported to the Stewards. The Competitor will be held responsible for the actions of the persons within their entourage and may be penalised accordingly.

15.3 In particular, the following rules must be followed at the Event:

- Cars may only be parked in the area to which they are assigned and with a valid car pass displayed. Any cars found in the wrong area or without a car pass will be removed and the Team will be reported to the Stewards, where a minimum fine of 1000 € will be imposed. In particular, any attempts to forge or replicate passes or other access documents will be reported to the Stewards and the Competitor will be penalised in accordance with Article 12.2. Cars or vans with Delivery passes may be used for a maximum of 30 minutes within the paddock for delivery purposes. After this time, they must return to their correct parking area.

- Any unsafe actions in the paddock, including excessive speed or circulating in the opposite direction to any given circulation plan may be penalised
- At all times, Competitors, their personnel and suppliers must obey the instructions given by the Organisation of the Event in terms of the set-up of Sporting, Hospitality or other units in the paddock. Any refusal to follow the instructions given will result in the Team being summoned to the Stewards and the Competitor may be penalised accordingly.
- Teams and Competitors must abide by any specific medical or safety Protocols set in place by the Promoter, Circuit or ASN. Any failure to follow the instructions given will result in the Competitor being summoned to the Stewards and penalties may go as far as disqualification from the Event and/or removal of some or all of the Team members or entourage from the venue.

15.4 Grid Access and behaviour

- Golf karts, quad bikes, scooters, e-scooters etc are not allowed on the grid. Only tyre trolleys, pushed by mechanics, are authorised.
- Teams will be informed of the grid access and entry point at the Event. Team guests – which includes parents, friends, coaches and all other such people- may ONLY access the grid by this entry point. Under no conditions may they cross the fast lane from the pit garages. Guests entering via pit garages will be stopped and reported to the Stewards. Note that children under the age of 15 are never authorized on the grid. Other higher age limits may be imposed by individual circuits.
- Guests on the grid must follow the instructions of the SRO personnel, marshals and other officials. They must clear the grid when requested to do so. Any refusal will be reported to the Stewards.
- A pass is needed to access the grid, including pit lane, media, driver, full access or organisation passes. Any other people who do not hold one of these passes needs a grid walk wristband delivered or sold by SRO. Any team guests attempting to go on the grid without a valid pass will be reported to the Stewards.
- Teams are responsible for the people within their entourage, as stated in article 15.1 above
- Pit Lane Passes, which include Driver Passes are reserved for those people with an official function in the Race, such as team managers, mechanics, officials, support staff. They are not to be used by guests, family members etc. Any people found with an unjustified pit lane or driver pass will be refused entry and the Team will be reported to the Stewards.

16 INCIDENTS AND SANCTIONS

16.1 "Incident" means any occurrence or Event of occurrences involving one or more Drivers and/or Team members, or any action by any Driver and/or Team member.

The Race Director may report any on-track incident or suspected breach of these Sporting Regulations or the Code (an "Incident") to the Stewards. After review, it shall be at the discretion of the Stewards to decide whether or not to proceed with an investigation. The Stewards may also investigate an Incident noted by themselves.

16.2 Any Incidents involving more than one car may be investigated immediately or reviewed after the relevant session or race. Any such Incident which results in at least one of the cars being unable to continue will be automatically placed under investigation.

16.3 a) It shall be at the discretion of the Stewards to decide, upon a report or a request by the Race Director, if Drivers and/or Team members involved in an Incident shall be penalised.

b) If an Incident is under investigation by the Stewards, a message informing all Teams which Driver or Drivers are involved will be displayed on the timing monitors (if the facilities on the circuit so permit).

However, failure to display notification that an Incident has been placed under investigation will not invalidate that investigation or any subsequent decision and/or penalty.

c) If a Driver is involved in a collision or Incident (see Article 16.1), and has been informed of this by the Stewards no later than 30 minutes after the race has finished, he must not leave the circuit without the consent of the Stewards.

16.4 The Stewards may impose one or more of the following penalties, simultaneously if applicable and/or in substitution or in addition to other available penalties, on any Driver involved in an Incident:

- a) A time penalty to be served at the next scheduled pit stop or to be added to the elapsed race time.
- b) A drive-through penalty. The driver must enter the pit lane and re-join the race without stopping.
- c) A stop-and-go or stop-and-go with a prescribed stop time. The driver must enter the pit lane, stop in the penalty zone (for the prescribed stop time where appropriate) and then re-join the race. A stop-and-go penalty may also be awarded for the start of a session (free practice or qualifying), in which case the car may only join the session after the given time has elapsed.
- d) A drop of grid positions at the driver's next race.
- e) Disqualification of the driver from the Competition.
- f) Reprimand
- g) Warning

16.5 Should any of the penalties under Article 16.4 b) or c) above be imposed and notified after the end of the race, or, for duration races, during the last 10 minutes, at the discretion of the Stewards, Article 16.6.2 and 16.6.3 below shall not apply and an additional time penalty of normally a minimum of 30 seconds in case b) and normally a minimum of 35 seconds + the prescribed stop time in case c) shall be added to the elapsed time of the car concerned. The precise time penalty in respect of case b) and case c) for each Competition, according to the pit lane length, will be notified in a Stewards' Bulletin at the Event.

Fines will normally be imposed for matters relating solely to the conduct of a Driver or a Team member having no direct sporting application. These include missing a Drivers' briefing or press conference without force majeure or prior agreement, speeding in the pit lane during free practice or qualifying, or other items considered by the Stewards to fall under this category. Any sums paid as fines will be placed in the SRO Motorsports Fund as authorised by the RACB further to Article 12.8.3 of the International Sporting Code (see Appendix 5). Fines may be accompanied or replaced by an obligation to accomplish some work of public interest in accordance with Article 12.4.1.d of the International Sporting Code.

Incidents occurring during free practice may result in a stop-and-hold penalty during that session or the next session of this nature, of a length to be determined by the Race Director or Stewards. Should Incidents occur during free practice without the possibility for the penalty to be served, the penalty may be converted into a fine. During a stop-and-hold penalty, the car is not in parc fermé and may be worked on by the team, but it is not allowed to leave its working area.

Incidents occurring during qualifying may result in either the deletion of lap times by the Race Director or Stewards, or a drop of positions on the starting grid, the number of positions to be decided by the Stewards. In Incidents involving cars from different categories, the Driver of the car from the more professional category will be deemed to be at fault unless the Stewards are satisfied that evidence clearly shows the contrary. Where relevant, the Stewards may take note of the differing categories of cars involved in an incident when determining the appropriate penalty.

16.6.1 Time Penalty

Should the Stewards decide to impose a time penalty as provided for in Article 16.4 a) the following procedure shall be applied:

At the car's pit stop, the Driver must enter the pit lane and stop in his pit stop position under Parc Fermé conditions for the given penalty time. No-one from the Team may touch the car during this period, and the Driver cannot open the door. Once the time has elapsed, the pit stop according to Articles 36-39 may begin. The mandatory minimum pit stop time will be extended by the penalty time imposed.

If such a penalty is imposed after the mandatory pit stop has taken place, the time will be added to the race time after the chequered flag unless the car makes a further pit stop, in which case the penalty must be served as above at that pit stop.

In the case that a race is red-flagged and cannot be resumed before a penalty has been served, the time will be added to the elapsed race time of the car concerned.

16.6.2 Drive-Through Penalty

Should a drive-through penalty be imposed, the following procedure shall be applied:

- f) No penalty can be taken by a Team until it has been notified in writing, either on the timing monitors or by a document issued by the Stewards.
- g) From the time the decision is notified on the timing monitors, the relevant car may cross the Line on the track no more than twice before entering the pit lane
- h) However, unless the car was already in the pit entry for the purpose of serving its penalty, it cannot carry out the penalty after the Safety Car or Full Course Yellow procedures have been deployed. In this case, the number of times the Driver crosses the Line behind the Safety Car or during a Full Course Yellow procedure (or crosses the Line at the end of a Safety Car period when the Safety Car has returned to the pit lane) will be added to the maximum number of times he may cross the Line on the track. At the end of a Safety Car period drivers must pass the green flag at the Line before entering the pit lane to serve a penalty (i.e. they may not follow the Safety Car into the pit lane).
- i) The car must drive through the pit lane, respecting the pit lane speed limit, without stopping or slowing except for force majeure, and rejoin the track.

16.6.3 Stop-and-Go Penalty

Should a stop-and-go penalty be imposed, the following procedure shall be applied :

- f) No penalty can be taken by a Team until it has been notified in writing, either on the timing monitors or by a document issued by the Stewards.
- g) From the time the decision is notified on the timing monitors, the relevant car may cross the Line on the track no more than twice before entering the pit lane
- h) However, unless the car was already in the pit entry for the purpose of serving its penalty, it cannot carry out the penalty after the Safety Car or Full Course Yellow procedures have been deployed. In this case, the number of times the Driver crosses the Line behind the Safety Car or during a Full Course Yellow procedure (or crosses the Line at the end of a Safety Car period when the Safety Car has returned to the pit lane) will be added to the maximum number of times he may cross the Line

on the track. At the end of a Safety Car period drivers must pass the green flag at the Line before entering the pit lane to serve a penalty (i.e. they may not follow the Safety Car into the pit lane).

- i) The penalty is to be served in the respective Team's pit box. Teams are responsible for ensuring that the car stops for the period notified.
- j) Whilst a car is stationary in the pit lane as a result of incurring a stop-and-go penalty, it must not be worked on. However, if the engine stops, it may be started after the penalty period has elapsed, respecting Article 33.11 (c). If the Driver is unable to start his car by himself, it may be evacuated to its pit garage by its mechanics.
- k) When the prescribed stop time has elapsed, the Driver may re-join the track. The stop-and-go penalty cannot be combined with a pit stop, either mandatory or optional.

16.7 The penalties given in these regulations are guidelines only. The Stewards may impose any penalty or combination of penalties specifically set out in these Sporting Regulations or available to them under the Code which they deem to be appropriate in the event of any breach of regulations. In addition, the Stewards may issue suspended penalties at their discretion.

Nothing in these regulations shall preclude the Stewards from referring any matter to the appropriate ASN for consideration of further penalty in accordance with the Code should the Stewards consider that a penalty beyond their powers may be merited in any instance.

Any case not provided for in the regulations will be studied by the Stewards, who have the authority to settle any matter which might arise during an Event.

16.8 The following procedures may be implemented by the Stewards regarding written documents and communications:

- a) Summons - will be issued to a Competitor and sent to the email address lodged with the Event Manager at the start of each Event or by the Team Messaging Application. A Summons will include the names of the Stewards but will not include handwritten signatures. Upon receipt of a Summons, a Competitor should send a reply, stating 'Received'.
- b) Decisions - will be issued to a Competitor and sent to the email address lodged with the Event Manager at the start of each Event. A Decision will include the names of the Stewards and their handwritten signatures. Upon receipt of a Decision, a Competitor should send an email in reply, stating 'Received'. It should be noted that this acknowledgement does not state or imply that a Competitor accepts the Decision and does not affect in any way the right of a Competitor to appeal a decision, where permitted to do so under the regulations.
- c) Bulletins and Decisions – will be posted on the Digital Notice Board. The time of posting will be stated on each document and will be the official time. Paper copies will not be distributed or displayed on any physical noticeboard.

17 Not in Use

18 PROTESTS AND APPEALS

18.1 Protests shall be made in accordance with the Code and must be submitted to the Chairman of the Stewards. The protest fee is €350 (five hundred euros) which must accompany the protest. Appeals will be heard by ACI SPORT. Amount of the appeal fee: 1.500 EUR.

18.2 Not in use

18.3 In accordance with FIA International Sporting Code Article 12.3.4, appeals may not be made against any element of decisions resulting in the imposition of any of the following penalties:

- Drive-Through or stop-and-go penalties (including those imposed during the last laps of a race, or after the race, and converted to a time penalty);
- Time penalties (whether imposed during or after the race);
- Drop of grid positions;
- Disallowance or deletion of practice or qualifying lap times (whether imposed by the Race Director or Stewards);

18.4 Where the Stewards consider that they are able to make a decision during a race without reference to images from any on-board camera, the availability of such images to a competitor after the race will not normally be deemed to constitute the discovery of a significant and relevant new element in relation to any subsequent petition for review of that decision under ISC Article 14.

19 MANDATORY EQUIPMENT

19.1 Data Acquisition System

All Competitors must use the GT4 data acquisition system (data logger) as defined by SRO and listed in Appendix 7. This system must be used throughout each Competition and must operate fully and correctly at all times, with all required data fully recorded and retrievable. It serves exclusively to store the data acquired, which may be checked at any point during any Competition. The weight of the system is included in the minimum weight of the car.

All costs connected with the checking, servicing and updating of the system are borne entirely by the Competitors.

Please see Article 27 for all information concerning the use of the Data Acquisition System.

19.2 Incident Camera

It is the responsibility of each Competitor to obtain an onboard camera system and to install it in strict compliance with the relevant instructions.

The weight of the Incident Camera system is included in the minimum weight of the car.

The camera must face the front of the car and show the track. If the camera is linked to a data acquisition system then the competitor must ensure that the video camera footage includes a visual indication of brake application. If a data acquisition system is not linked to the camera then the car must be fitted with a separate red light fitted to the dashboard, in clear view of the video camera, that indicates when the brakes are applied.

The data from the onboard camera system may be used by the Stewards, Race Director, or Promoter to investigate incidents. All data from onboard camera system(s) is/are property of the Promoter and will be returned to the team after the Event.

The Incident Camera must operate correctly as soon as the car leaves its garage or Team awning. Officials may recover the footage after all practice sessions and races. If so requested, Teams must deposit their SD card in a box in a specified location, within 10 minutes of the car arriving in the paddock. One mechanic per Team, wearing an orange armband, is permitted to remove the SD card from the mandatory camera once the car has been returned to the paddock. This mechanic must not touch any other part of the car or perform any other duty, check or adjustment. If the car is under Parc Ferme conditions, then any infractions would be considered to be a breach of the Parc Ferme regulations and would be reported to the Stewards.

The Incident Camera must be installed in a manner such that the camera image shows both the whole steering wheel and the area ahead of the car (viewed through the windscreen). The Technical Delegate shall be entitled to require modifications to the camera's position and the angle of view.

The Competitors shall bear the related cost as it is their responsibility to ensure the cameras are in working order and correctly positioned. No parts or equipment obstructing the camera's view shall be installed between the camera and steering wheel and the camera and windscreen.

The video files must be in MP4, AVI or MOV formats. If video software is used, this must include a track map.

All SD cards must be emptied before the start of each session and be of sufficient capacity to record the entire session. The date and time on the camera must be correct.

19.3. Transponder

Each Driver must use the Driver Timing transponder specified by the Promoter throughout the Competition. It is the responsibility of each Competitor to obtain this transponder at their own expense, to install it, to make it work correctly, and to ensure it is showing the correct information at all times. This transponder must be installed in strict compliance with the relevant instructions. Any problems with the transponder must be notified to the Race Director immediately.

To ensure that the proper Driver is shown at all times, the Driver ID must not be changed before the car is stationary for a pit stop and must be correctly changed before the car crosses the pit exit loop.

If an incorrect Driver ID is recorded at pit entry or pit exit, a penalty may be imposed by the Stewards. Please see Appendix 7 for details of the compatible Transponders.

19.4 Light panel

If so requested, a light panel approved by the Promoter, showing the car's race position, must be installed in each car according to the position set down in the Promoter's Graphical Charter given in Appendix 3. It will be the responsibility of each Team to obtain and install the car position light panel according to the instructions issued by the Promoter, and to ensure that it is working correctly at all times. Please see Appendix 7 for further details.

19.5 GPS

Teams will be required to install data units for the purpose of transmitting GPS positioning data to the timekeeping system. It will be their responsibility to obtain and install this unit in accordance with the instructions given by the Promoter, and to ensure that it works correctly at all times during every session and race. Any such data may be used by Officials to inform any investigations or decisions. Failure to use the GPS correctly may result in a penalty from the Stewards.

Should any car be involved in a serious collision, Teams are required to return the GPS box to the Official Timekeepers for checks immediately after the incident and before the next event.

19.6 In-car Marshalling System

An in-car marshalling system will be provided for each car. It will be the responsibility of each Team to install it in each car in accordance with the instructions given and to ensure that this is working correctly at all times. Irrespective of the in-car marshalling light system, drivers must always abide by the instructions given by flags and/or light panels around the track. Further information on the use of the system and regulations relating to it will be given in the Briefing Notes for individual events or in a Bulletin from the Stewards.

19.7 Pit Gantry Cameras

A Pit Gantry Camera must be obtained by each Competitor. It must be installed on the pit gantry in accordance with the specifications. Data cards will be supplied by the Promoter. The cards and the images remain the property of the Promoter. It will be the responsibility of each Team to ensure that the camera is

switched whenever the car is in the working area, including pit stops in all sessions and the Race and must be working correctly at all times. The date and time on the Pit Gantry Camera must be set up correctly.

Option 1 : When requested, the data cards must be deposited by each Team in the box designated for this purpose within 10 minutes of the end of the session, so that they can be examined by the Pit Lane Officials. Cards will be distributed at the start of every Event by the Pit Lane Officer and must be handed in at the end of the Event. Infractions may be reported to the Race Director or the Stewards. Failure to provide the images or to deposit the card may result in a penalty. Appendix 10 applies.

Option 2 : Competitors may be required to upload the images from the Pit Gantry Cameras after each session or after each pit stop, as notified on the Team Messaging Application. Failure to upload any such data when requested will be reported to the Stewards.

19.8 – 19.13 Reserved for future use

20. DRIVING STINTS AND PIT STOPS

20.1 Pit Stops

It is not mandatory to change driver or to change tyres at each pit stop.

a) The total length of any pit stop which includes refuelling, calculated from pit in to pit out, must not be less than a time set at **170 seconds** (140.000 seconds plus the pit lane delta at 50 km/h,) This time is provisional and will be confirmed in a Bulletin to be published by the Stewards of the Meeting. It may be changed up until one hour before the start of the race.

During the time that the car is being refuelled, the driver change may take place. Once the refuelling has finished, the tyres may be changed, in accordance with Articles 37-39.

b) The minimum length of a pit stop that does not include refuelling but involves changing one or two tyres is **70 seconds** (40 seconds plus the pit lane delta)

c) the minimum length of a pit stop that does not include refuelling but involves changing three or four tyres is **105 seconds** (75 seconds plus the pit lane delta)

Should the length of any pit stop fall below the given time, a penalty will be awarded by the Stewards in accordance with Article 20.8 below. However, these figures may be adjusted in order to remove any advantage gained by such a stop. Repeated offenses may result in additional penalties.

The pit stop times may be adjusted during the Event and any changes will be published by the Stewards in a Bulletin.

d) The minimum definition of a pit stop in order to reset the driving stint is to stop in the working area, switch off the engine, switch the engine back on and rejoin the track while respecting the speed limit.

e) For pit stops without refuelling, and with no changing of tyres, the only limit is the pit lane delta.

f) There will be a non-cumulative one-second tolerance, which may be used two times during the Race, and which may be applied to any timed pit stop, with the exception of one where a timed penalty is being served.

20.2 Pit Stop Time

Should the pit stop times as given above be adjusted, this will be issued in a Bulletin from the Stewards.

- 20.3** Not in use
- 20.4** Not in use
- 20.5** Not in use
- 20.6** Not in use

20.7 Amendments to Driving Stints and Pit Stop Times

If the circumstances so require, the Stewards may adjust minimum or maximum driving times, or pit stop times, at their discretion at any time during the Competition.

20.8 Penalties for pit stop times

If the pit stop time, measured between pit in and pit out, of any car is under the mandatory pit stop time for that car as published in the Bulletin for that particular race, the minimum penalties will be as follows :

- Under one second for the first time in the Race : use of the joker second
- Under one second for the second time in the Race : use of the second joker second
- Under one second for the third time and subsequent times in the Race: 10 second time penalty to be served at the next pit stop or added to the race time if this occurs during the final pit stop.
- Between 1 second and 10 seconds : time penalty of 10 seconds plus the missing time
- Over 10 seconds : stop-and-go penalty of the missing time.

The Stewards may adjust or alter these times should there be any indication of an attempt to gain a sporting advantage, for example when a safety car is in operation.

21. NUMBER OF CARS ALLOWED TO PARTICIPATE

The maximum number of cars allowed to take part in practice and to start the Event is calculated according to Supplement n°2 of Appendix O to the Code.

If the number of applications to enter the Competition exceeds the maximum number as calculated above or a lower number given in the Appendix 1 document for the Competition, the Competitors will be selected according to the criteria of the Promoter.

22. LIVERIES – NUMBERS – GRAPHICAL CHARTER

22.1. Each car will carry the race number allocated by the Promoter. Race numbers must be an integer between 0 and 999.

Race numbers and advertising on the cars must be in conformity with the Promoter's Graphical Charter for the Event and must be clearly visible from the front and from each side of the car. Any logo on doors, bonnet or roof which could be confused with a car's racing number is prohibited.

Additionally, each car must carry its race number on the rear of the car. The numbers will be provided by the Promoter.

Cars must be presented to the scrutineers as per the Graphical Charter (See Appendix 3)

- 22.2** Not in use
- 22.3** Not in use

22.4 If it is impossible to identify a car from its numbers, it may be stopped by the Race Director by his own volition or on request from the Technical Delegate.

22.5 Each car and Driver must adhere to the Promoter's Graphical Charter, including the Pirelli Graphical Charter, for each Competition in terms of the decoration of the car and Driver overalls, as well as the restrictions noted in Article 11.3 g). Any infractions will be reported to the Stewards. Please see Appendix 3.

23. ADMINISTRATIVE CHECKS

23.1 At the Event, the ASN will check the licences of all Teams and Drivers, who must send copies of licences in advance, as well as signing any waivers requested by the ASN and approved by the Promoter. All Competitors and Drivers must have authorisation to compete abroad from their ASN. Any Driver or Team failing to complete their administrative checks during the allotted time will be reported to the Stewards.

Any Driver or Team who is unable to attend at the given time must inform the Stewards in writing.

The list of Competitors and Drivers and cars authorised to take part in the Competition will be published before the start of the Free Practice Session. Teams and Drivers who are not in compliance with Article 22.5 will not be listed.

23.2 No Competitor, Driver or other person concerned with an Automobile can be required to sign any waiver or other document unless this requirement is stated in the regulations.

23.3 Each Competitor must confirm in writing their Official representative(s) for the Event.

24. SEAN EDWARDS FOUNDATION TEST

All Drivers taking part in the Event must have completed the Sean Edwards Foundation assessment test during the 2023 season.

25. BRIEFINGS

a) Team Managers' Briefing

A Team Managers' briefing will be held before the first on-track session and before the Drivers' briefing. All Competitors' appointed representatives must be present throughout the briefing. Any representatives unable to attend must inform the Stewards in writing. Should any Competitors fail to be represented during the Briefing, they will be reported to the Stewards.

b) Drivers' Briefing

A briefing by the Race Director will take place at the latest on the day of the free practice in the location specified in the Appendix 1 of the Competition. A physical briefing may be replaced by a video conference. All Drivers entered in the Competition, and their Competitors' appointed representatives, must be present throughout the briefing. Any Driver or Competitors representative unable to attend must inform the Stewards in writing.

Except for force majeure, any absence may result in a penalty from the Stewards.

Fines may be accompanied or replaced by an obligation to accomplish some work of public interest in accordance with Article 12.4.1.d of the International Sporting Code.

A driver cannot take part in any on-track session until he has been given the respective drivers' briefing or, where agreed by exception, received a personal briefing from the Race Director.

In exceptional circumstances, the Drivers' Briefing will not be held. It will be the responsibility of the Team Managers to inform their Drivers of the information provided by the Race Director in the Team Managers' Briefing. In this case the Team Manager must sign a confirmation document that all the Drivers have been briefed.

If the Race Director considers that another briefing is necessary, it will be held at a place and time agreed with the Stewards. The Drivers and the Competitors' representatives will be informed accordingly.

26. SCRUTINEERING

26.1 Each Competitor must have all documents required by Article 3.6, and the various documents relating to his car, available for inspection at any time during the Event. Each car must bear identification stickers clearly visible from the front, rear and from each side of the car.

26.2 Competitors must present a technical passport (with first pages completed and pictures added) and homologation form for each of their cars entered in the Competition. The technical passport will be established the first time a car is presented for Scrutineering.

26.3 Cars must be presented to the Pre-Event Scrutineering at the time indicated on the Scrutineering Timetable with the homologation forms and the car passport. Failure to present the homologation forms will be reported to the Stewards.

The car must be presented in the following condition :

- with fuel cell and safety cage certificate,
- without fuel,
- with restrictors, ready for sealing, wire to be provided by the Team,
- with ballast, ready for sealing, wire provided by the Team,
- with the engine ready for sealing. Competitors must drill sufficient holes in the ribs and/or two consecutive screws in the sump, cylinder head and cylinder head covers. Twisted wire must be installed on each side of the engine, coming from the sump, joining each group of screws, holes or ribs so that these parts cannot be separated. Wire ends must be long enough to allow the plaques and seals to be affixed,
- for cars equipped with turbo chargers, the turbo must be ready for sealing, pre-wired,
- with identification and additional lights installed if applicable,
- with all mandatory stickers (technical / safety / Event sponsors) in accordance with the Graphical Charter (see Appendix 3),
- with dry-weather tyres.

26.3.2 Safety Form

Each Competitor must complete and return a fully completed and signed Safety Form for each car, listing all the safety equipment and driver equipment. The form must be returned by the date specified prior to each Event.

26.3.3 Tyres for Scrutineering

Unless otherwise specified, cars selected after qualifying or races will be scrutineered with the tyres on which they have finished their qualifying or race.

26.4 The weight of the car and other figures (number of seals, restrictor diameter) that will be written in the technical passport are under the sole and entire responsibility of the Competitor. It is always the responsibility of the Competitor to provide, at any time during the Event, proof that his car and equipment are in conformity with the regulations and current BOP decisions.

26.5 Any breaking of a seal during the Event must be requested in writing, and approved by, the Technical Delegate.

26.6 Not in use

26.7 All Drivers competing in the Event must use a helmet and an FHR device homologated by the FIA. Helmets complying with FIA standards 8859-2015, 8860-2010, 8860-2018 or 8860-2018-ABP are allowed. However, the FIA Standard 8860-2010 or 8860-2018 or 8860-2018-ABP are strongly recommended.

Drivers must wear overalls, gloves, long underwear, a balaclava, socks and shoes, which meet the FIA Standard FIA 8856-2000 or FIA 8856-2018. (As per ISC App L Chap III Art 2.) Helmets and clothing must pass Scrutineering before the Event, as well as whenever there is a change of any of the items which have already been checked. The Driver does not need to be present when his equipment is presented. Drivers may be requested to present any or all equipment to the ASN at any time during any Event. Driver overalls must be checked for conformity to Article 22.5 and Article 11.3 g).

26.8 Not in use

26.9 The official Event and sponsors patches provided by the Promoter must be stitched or embroidered on the Drivers and mechanics overalls in accordance with ISC Appendix L Chapter III Article 2. Any breach of this Article may lead to sanctions imposed by the Stewards.

26.10 Pre-Event Scrutineering of the car and of the Drivers' equipment and sporting checks for the Competitors will take place in accordance with the Official Timetable for the Event.

Any Competitor unable to attend at the given time must request permission in writing to the Stewards, who may grant permission for a waiver for delayed scrutineering if they are satisfied that special circumstances justify this. Competitors who do not keep to the time limits and who have not been granted a waiver for delayed scrutineering may be given a penalty.

Teams must abide by the instructions of the Officials and pit lane marshals when proceeding to Scrutineering. Fines may be accompanied or replaced by an obligation to accomplish some work of public interest in accordance with Article 12.4.1.d of the International Sporting Code.

26.11 No car and no Driver may take part in the Competition until they have successfully completed all scrutineering checks.

26.12 The Scrutineers may:

- a) Check the eligibility of a car or of a Competitor at any time during an Event and may conduct checks without prior request from the Clerk of the Course, Race Director or Stewards.
- b) Require a car to be dismantled by the Competitor to make sure that the conditions of eligibility or conformity are fully satisfied,
- c) Require a Competitor to pay the reasonable expenses which exercise of the powers mentioned in this Article may entail,
- d) Require a Competitor to supply them with such parts or samples as they may deem necessary. At the end of qualifying, and of the races, the car must contain at least 2 kg of fuel. The 2 kg of fuel must be taken in the Parc Fermé through an FIA-approved self-sealing connector, fitted immediately before the injectors (see Technical List n°5). The sample-taking must be done prior to any check requiring the engine to be started.
- e) Check the air restrictor diameters:
 - i. Competitors are obliged to equip their engines with intake restrictors as provided for in the Technical Regulations for GT4 Grand Touring Cars and modifications throughout the season made by the SRO Technical Board.
 - ii. The dimensions and geometry of the restrictors must comply with the Regulations and/or any decision and modifications throughout the season made by the SRO Technical Board, at all times and in all temperatures.
 - iii. The restrictors to be checked and marked must be accessible during the Scrutineering of the cars.
 - iv. The information entered on the technical passport for each Competition is the responsibility of the Competitor, who will sign it, once he has filled in all requested information.

- v. Each restrictor will be identified by means of a metal plate indicating the serial number of the seal. This number will also appear in the technical passport. The diameter must be engraved on the restrictor. It will be up to the Competitor to ensure that the Scrutineer is able to see the plate and the seal very easily simply by opening the bonnet.

26.13 Before the end of the Pre-Event Scrutineering at each Competition, the cars must be presented in race condition but without fuel for weighing in the Scrutineering garage. At this moment, the restrictor plates will be identified.

26.14 At the end of the qualifying practice sessions and after the finish of the races, all classified cars must make their way to the Parc Fermé for checking. The presence of an Official representative of the Competitor is required.

26.15 Any car which, after being passed by the Scrutineers, is dismantled or modified in a way which might affect its safety or call into question its eligibility, or which is involved in an accident with similar consequences, must be re-presented for Scrutineering approval before taking part in any further track session.

26.16 With the exception of the races, the Scrutineers may request a car to stop in the Scrutineering Garage at any point during a session for checks to take place. Any infractions will be reported to the Stewards.

26.17 The Race Director, of his own volition or on request from the Technical Delegate may require that any car involved in an accident be stopped and checked at any time.

26.18 The Stewards will publish the Scrutineers' findings each time cars are checked during the Event. These results will not include any specific figures except when a car is found to be in breach of the Technical Regulations.

26.19 Checks and Scrutineering shall be carried out by duly appointed Officials who shall also be responsible for the operation of the Parc Fermé and who alone are authorised to give instructions to the Competitors.

27. DATA LOGGER & ECU

27.1 A data-logger with additional sensor must be installed in all cars at all Competitions in accordance with Article 19.1. SRO Data Technicians will check all data loggers prior to the first free practice. Cars without loggers or with loggers which are not working correctly are not in conformity with the regulations and may be reported to the Stewards. The data-logger must be fitted with the interface for the Timing GPS module.

27.2 The data-logger is also a Scrutineering device and data will be used for Scrutineering purposes. The reference engine data will be the data collected during the 2023 SRO Official BOP test or those collected during other tests and races with the current BOP decisions.

27.3 Only the Data cards supplied with the Data Logger or by the Data Technician are authorised to be used during any Event.

No data, memory cards or similar storage media shall be extracted or removed from the datalogger system during the Event. This can only be done by the Data Technicians or Scrutineers working for the Technical Delegate. The removal, extraction or manipulation (manually, electronically or in any other form) of data or memory cards or similar storage media or the data logger will be reported to the Stewards. Data cards and any other component of the data logging system may be sealed at any time.

27.4 Information on the installation and use of the data logger is available on the Teams Sections of the Event website.

27.5 The data thus collected must remain at the disposal of the SRO Technical Department and the Technical Delegate. The SRO Technical Department can be assisted by technicians specialized in electronic systems in order to ensure the correct operation and the conformity of the readings of the data logging system and the conformity of the various systems with which the cars are equipped. They may at any moment remove, exchange or control the various electronic components of a car and draw up a report to the Technical Delegate on their investigations, and they reserve the right to keep the components they have removed for later analysis. No protest or appeal will be accepted concerning these controls and removed components. If a case of non-conformity is noted (either during or after any Event), this may be reported to the Stewards.

27.6 The data logger must work throughout the Competition, including during every practice. Controls may be carried out at any time. Competitors cannot leave the Event before their data loggers have been downloaded or unless the Stewards have given their consent for them to leave. The failure of the data logger or data card to operate fully and correctly or to record and store for retrieval all required data, will be considered a sporting infringement, and penalties will be imposed by the Stewards.

27.7 The GPS antenna of the data logger must be mounted on the roof and no other antenna can be within 30 cm of this. If necessary, the SRO Technical department can require Competitors to remove other antennas from the roof.

28. WEIGHING

28.1 At any time during the Event, the Technical Delegate or Scrutineers may select cars to be weighed. To identify which Driver is on board the car, each Driver must bear on both sides of his helmet a numbered sticker plus any other identification mark required by the Organisers of the Event in agreement with the Stewards and the Technical Delegate.

28.2 Should the weight of a car be less than that specified on the Balance of Performance table for that Competition, the Competitor concerned may be given one of the penalties set out in Article 28.8, save where the deficiency in weight results from the accidental loss of a component of the car.

28.3 No substance may be added to, placed on, or removed from a car after it has been selected for weighing or has finished the race or during the weighing procedure (except by a Scrutineer when acting in his Official capacity and in accordance with the technical regulations, or when requested to do so by a Scrutineer).

28.4 No one other than Scrutineers and Officials may enter or remain in the Scrutineering garage without the specific permission of the Technical Delegate.

28.5 A car must carry an Official television on-board camera and its equipment if so requested. The weight is included in the weight of the car as specified on the Balance of Performance sheet for that Competition. All cars must be prepared to allow the installation of the camera according to Appendix 9. Teams are responsible for the camera installed and any non-accidental damage may be reported to the Stewards.

28.6 A Competitor may fit one or more personal cameras in the car for training and information purposes. Official onboard cameras have priority. The Competitor must obtain written permission from the Promoter and from the Technical Delegate for each camera. The installation must be presented at the time of Scrutineering. At the sole discretion of the Technical Delegate any camera considered unsafe must be

removed by the Team. The weight of the complete equipment is not included in the minimum weight of the car. Cameras transmitting live video footage are not authorised. Cameras affixed to helmets are not authorised.

The images from any such personal camera should not be presented by the Team to the Race Director or Stewards to support any sporting matters, except when a Competitor has lodged a relevant formal protest. If necessary, the Race Director or Stewards may ask to see the images from any such personal camera, even if the car is in Parc Fermé. The images must not be distributed, shared or uploaded on the internet unless specifically authorised by SRO.

28.7 The average weight of the Drivers in any car competing in the Event must be at least 85 kilograms. Should the average weight of the Drivers in any specific car be less than 85 kg, the car will be required to carry Driver Ballast to compensate. The following procedure will be followed:

- a) Each Competitor must declare the weight of his Drivers, including overalls, underwear, shoes, gloves, helmet and HANS, at the time of the administrative checks. Note that seat inserts for the Driver are not part of the Driver weight and should not be included in the declared weight. Seat inserts are not included in the minimum weight of the car.
- b) The average weight of the Drivers in the car will be calculated and rounded up to the nearest integer. If any Drivers are given permission to race alone, the driver's weight will be rounded up.
- c) If the average weight is under 85kg, then the Driver Ballast to be carried by the car will be calculated as 85kg minus the average weight.
- d) The Driver Ballast must be installed in the ballast box and sealed before qualifying.
- e) The Driver Ballast, as well as the individual weight of the Drivers in question, may be checked at any point during the Event. Any anomalies will be reported to the Stewards. Penalties may go as far as deletion of times in Qualifying or Disqualification from the race.
- f) The Driver Ballast is not included in the minimum BOP weight of the car.
- g) For all cars, if the average weight is over 85kg, then the excess weight may be removed from the minimum BOP weight (if any).

28.8 In the event of any breach of these provisions for the weighing of cars, the Stewards may give any penalty they consider appropriate, up to disqualification from the session or race.

29. SUPPLY OF TYRES AND TYRE LIMITATIONS DURING THE EVENT

29.1 Tyre Supply

Only tyres from the official Pirelli distributor for the Event, approved and registered by the Promoter and sold at the Event, will be accepted. Tyres must be ordered and paid by the deadlines set by Pirelli, failing which tyres will not be supplied. For the purposes of this Article, 'Event' means any official test event or round of the Event held during the year.

Only one type (specification and dimensions) of dry-weather tyre and one type of wet-weather tyre will be registered per car.

The list of the approved tyre specifications will be published at the latest two weeks prior to the first Event in the Event.

All tyres must be used as supplied at the Event by the tyre manufacturer specified by the Promoter. They must comply with the specifications determined by Article 29.2. Any chemical and/or mechanical treatment of the tyres is prohibited. The original tyre tread and profile must not be modified or cut. Modification to marking, reference, information written on the tyre or any traceability means is forbidden. This includes the barcode, manufacturer serial number, type of tyre, dimensions and any other relevant items.

Teams are recommended to adhere to the limits detailed in the technical booklet issued by Pirelli and received from the Promoter before the Event, as well as to any other Technical Bulletins received during the season.

Teams and Drivers are required to sign the 'Acknowledgement of Risks' form issued by Pirelli before the Event. On entering the Event, Teams are required to sign and return the 'Supply Agreement with Teams' issued by Pirelli.

A new tyre is a tyre that has not been previously registered and/or allocated to a car during the 2023 season. A set of tyres must comprise two front tyres and two rear tyres. Front and rear tyres are not interchangeable.

29.2 Dry and Wet weather tyres

Dry-weather tyres: only tyres with no tread pattern are accepted as dry-weather tyres.

Wet-weather tyres: a wet-weather tyre is a tyre which is designed for use on a wet track, and is grooved more than 30% symmetrically around the tyre centre-line and covering a square:

- a) 9 inches 180 x 180 mm
- b) 10 inches 200 x 200 mm
- c) 11 inches 230 x 230 mm
- d) 12 inches 250 x 250 mm
- e) 13 inches 280 x 280 mm
- f) 14 inches 300 x 300 mm
- g) 15 inches 320 x 320 mm
- h) 16 inches 345 x 345 mm

Pirelli must provide the Promoter with a 1:1 scale legal drawing of the profile they wish to use. This profile must be registered with the Promoter and will be the only one authorised throughout the season.

29.3 Control of tyres

- a) The control of the tyres will be carried out according to a process defined by the Promoter.
- b) The outer sidewall of all tyres which are to be used at a Competition must be marked with an FIA barcode as identification.
- c) Other than in cases of force majeure (accepted as such by the Stewards), the barcode list of all dry-weather tyres intended for use at an Event must be presented to the Technical Delegate prior to the end of Scrutineering.
- d) A used tyre is defined as having been solely and specifically registered during an event for a previous GT4 Competition in 2023. Used tyres must be presented to Pirelli for checking and re-registration following the process defined by the Promoter and Pirelli. Pirelli maintains a list of the tyres which have been recorded during the season. Used tyres must be taken to Pirelli for re-registration before any new tyres are fitted. Used tyres from different sets may be combined to create one set of tyres with Pirelli's approval, while respecting front and rear tyres.

29.4 Tyre-heating devices

All tyre-heating devices are forbidden.

29.5 Joker Tyres

Each car competing in the Event has an allocation of one joker tyre for the Event, which can be used to replace any tyre which has been damaged or is otherwise unusable. The use of a joker tyre will only be authorised on information from the Race Director or Stewards that the car was involved in a related Incident or other on-track occurrence, and confirmation from the tyre manufacturer and/or Technical Delegate that the tyre to be replaced may no longer be safely used. A formal request must be made in writing and must include the reference of the damaged tyre and the reference of the tyre replacing it.

If a team requires more than one Joker tyre during the Event, a request must be made to the Stewards who will take a decision. Should the Stewards agree such a request, they may impose any penalty they consider appropriate.

29.6 Not in use

29.7 Not in use

29.8 Not in use

29.9 Not in use

29.10 Tyre Limitations for Dry-Weather Tyres

For each car, nine new sets of tyres may be registered, to be used during the event. This may include up to two sets of tyres purchased for the Paid Test Session as defined in article 29.14.

Unlimited used tyres, in accordance with article 29.5 above and as approved by Pirelli, may be used during any Paid Tests, Free Practice and Pre-Qualifying.

S1, S2 and S3 are to be used during Qualifying.

In case of a puncture or other damage during Qualifying or Race, another tyre from those registered for the Competition may be used to replace it. This replacement must be notified to the Technical Scrutineers. The use of tyres without appropriate identification is strictly forbidden during the whole Competition.

29.11 Tyre Limitations for Wet-Weather Tyres

During Free Practice and Qualifying, wet-weather tyres may be used only after the track has been declared wet by the Clerk of the Course/the Race Director for the session.

For the race, it shall be the choice of each Competitor to change tyres from dry to wet (or wet to dry). It does not require the Race Director to declare a "wet track".

Wet-weather tyres will not be marked and there is no limit on how many of them may be used.

In all cases, any infractions will be penalised by the Stewards.

29.12 Camber and Pressure

Values for the Maximum Camber and Minimum Pressure of tyres may be issued or modified during any Event and monitored at any time.

The maximum negative value for the camber of both rear wheels of the car may be monitored in static condition at any time during the Event, including in Parc Fermé after qualifying and the race(s), and must not exceed -3.5 degrees (subject to any change notified by Bulletin.)

The starting pressure of the tyres must be a minimum of 1.30 bar (subject to any change notified by Bulletin).

Any car failing to abide by these values will be reported to the Stewards, who will give any available sporting penalty, including a stop-and-go penalty to be taken at the start of the next session, deletion of lap times during qualifying or a time penalty after a race.

The pressures will be monitored, with random checks being made on the grid by nominated Officials. Any car which does not reach the minimum starting pressure to the satisfaction of the Officials present will be immediately reported to the Race Director. The Race Director will order via the timing monitors and/or radio, any such car, to return to its working area in the pit lane at the end of the formation lap to remedy the situation. Once the tyre pressures have been checked in the presence of a Pirelli engineer or Technical Scrutineer, the car may join the race.

Should the car fail to return to the pit lane before starting the race, the Race Director will show the car a black and orange 'mechanical' flag and the car must immediately return to its working area in the pit lane.

Once the tyre pressures have been checked in the presence of a Pirelli engineer or Technical Scrutineer, the car may rejoin the race. The Race Director will also report the car to the Stewards, who may impose any available sporting penalty for the failure to comply with the Race Director's initial instruction to return to the working area before starting the race.

29.13 Not in Use

29.14 Tyre Limitations for Paid Test Sessions

Tyres for the paid test sessions held at the Event must be in conformity with the principles laid down in Article 29.1, namely either new tyres or used Pirelli tyres from previous GT4 Events during the 2023 season, with permission from Pirelli. Eligible events include all SRO-promoted GT4 series and all ADAC-promoted GT4 series. These used tyres may be used during the paid test sessions only.

A maximum of two sets of new tyres per car may be purchased for the paid test sessions.

A maximum of two sets of new tyres purchased on site for the paid test sessions may be carried over to the Event as part of the nine sets of new tyres.

29.15 Cold Weather Provisions

In case of exceptionally cold temperatures (track temperature under 10° Celsius, measured one hour before the pit lane opens for the race), there will be two formation laps behind the leading car. The race timing will start at the end of the second formation lap.

30. BALANCE OF PERFORMANCE, OFFICIAL TEST SESSIONS AND PRIVATE TESTING

30.1 Balance of Performance (BOP)

Due to the nature of the cars and the choice of circuits, a specific Balance of Performance can be carried out for cars taking part in the Event.

Balance of Performance testing sessions of the RACB GT4 models running in the Event will be held before the start of the season. All cars competing in Endurance Competitions will have to be equipped with their endurance pack if it is available and has been homologated.

All manufacturers whose cars will be competing in the 2023 season must enter at least one of their cars in these sessions for the purposes of Balance of Performance Testing. A penalty may be imposed by the SRO Technical Board on any Team which does not attend, except for force majeure accepted as such by the Board. Additional performance tests may be carried out at any point during any Event and Teams will be required to allow their cars to take part in these tests if selected. At the request of the Technical Director, the official SRO Balance of Performance driver may be required to complete a number of laps in any cars entered in the Event during the pre-Event test sessions, Free Practice 1 and Free Practice 2. The BOP Driver will be added to the cars in question via a Bulletin from the Stewards and will undergo the same Scrutineering and Administrative Checks as all other drivers.

The SRO Technical Board is allowed to modify any parameter required to establish the SRO Balance of Performance.

The SRO Technical Board reserves the right to adjust the Balance of Performance until 120 minutes before the start of the Race. Teams will be notified of any such changes during the Event via a Bulletin from the Stewards.

If the Stewards are satisfied that any Competitor or Manufacturer has provided information which was misleading or has inappropriately influenced the BOP process or where a Competitor's or Manufacturer's subsequent performance is higher than the expected outcome of the process, they may impose sanctions or penalties before, during or after any Competition.

Cars must comply at all times during the Competition with the information and instructions given in the Balance of Performance document for the relevant Event, which will be validated by the Stewards for each Event via a Bulletin.

Should a car be not in conformity with its SRO/RACB GT4 Technical Form and/or the applicable Balance of Performance, it will be reported to the Stewards who may apply a penalty up to and including disqualification from the Competition.

30.1.1 BOP

Teams must abide by the following additional information in terms of the Balance of Performance documents, which may be altered or amended at any time. The latest version included in the BOP for any specific event will always be the correct one.

- Additional BOP Ballast must be installed according to the GT4 Technical Regulations
- ECU BOP maps are saved in the dataloggers for scrutineering.
- GT4 Cars are only eligible if presented with GT4 homologation file and SRO GT4 Certificate
- SRO GT Bureau can use any parameter for BOP purposes and can change the BOP of any car at any moment during the event.
- Engine reference data (iA, Lambda, Fuel inj, Cam In/Out, airbox pressure) is the one collected during BOP tests and will be used for checks.
- If noted differently in comments the (e.g. iA, Lambda, Fuel inj, Cam In/Out, airbox pressure) is set as reference.
- Turbo cars without adaptable pboost (identified with * in front of ECU BOP MAP) need to add +15kg per 20 mbar ambient pressure delta under 1010mbar, this means + 15 kg at Patmo of 990mb, +30 kg at Patmo of 970 mbar and +45 kg at Patmo of 950 mbar
- Max static rear camber -3,5°

30.2 Not in Use

30.3 Pre-Event Paid Test Sessions

An Additional Pre-Event paid testing session will be authorised by the Promoter before the Event. This paid test session will be open to all Competitors but will not be mandatory. This session will not be considered as part of the Event.

Please see Article 29.14 for tyre information for this session.

The price per car is 2000€ excl VAT. The instructions for the paid test session will be made available before the Event.

30.4 Not in use

30.5 Test sessions (mandatory or non-mandatory) will not be regarded as being part of any Event or Competition, and Drivers and cars which are not registered for the Event may be permitted to take part at the sole discretion of the Promoter.

30.6 Not in use

30.7 Not in use

30.8 Hardship Laps

In exceptional circumstances, Teams may request a hardship lap in order to check a car after significant repairs or other issues during an Event. Any such requests must be made to the Stewards. If authorised, any such laps will be scheduled, when possible, at the end of a session and will consist of a single lap from pit out to pit in.

30.9 Private Testing

Private testing on the Vallelunga circuit is forbidden as from 10 days before the start of the Event (the day when Administrative checks start) and until the date scheduled for that Event.

Private testing means any testing carried out by any Team entered in the Event involving Driver(s) entered for any Event with GT4 cars homologated by the RACB

Participation in Competitions counting towards other Championships or Event is not considered as private testing. This includes any official test sessions and all official practice sessions. However, participation in any additional (optional) sessions during these Competitions is not authorised.

Development test sessions organized by the official tyre supplier, Pirelli, are not considered as private testing. Permission will be granted for Teams and Drivers, nominated by the Car Manufacturer of reference, to take part in any such tests when requested by Pirelli to the SRO Sporting Board.

Private testing at the circuit may be authorised if the circuit configuration used is significantly different from that being used for the GT4 European Event. 'Significantly' in this instance would normally mean using fewer than half the same corners.

Written permission for any private testing after the deadline given above must be obtained from the SRO Sporting Board.

Any breaches of these rules may be reported to the Stewards at the relevant Competition of the Event. Penalties may go as far as disqualification from that Competition.

31. PROMOTIONAL ACTIVITIES – CARS, PIT WALKS AND AUTOGRAPH SESSIONS

31.1 In order to retain a level of equality between Teams and Drivers, the following restrictions apply during the Event:

- a) Additional laps with the race cars and Drivers entered in the Competition are only authorised as part of media activities to aid the promotion of the Event, including tracking laps for photo shoots, filmed laps for TV programmes or other activities organised by the Promoter.
- b) Promotional activities with road cars may be organised by Teams for their VIP guests or Media with permission from the Promoter. Promotional activities with GT4 race cars are not authorised except with exceptional permission from the SRO Sporting Board. Drivers competing in the Event may take part in any such activities.
- c) Promotional activities with race cars which are not eligible for the Event may be authorised with permission from the Promoter. Drivers competing in the Event may take part in these activities.
- d) There are no restrictions on Drivers and Teams competing in other races taking place at the same Event, as long as this does not impact in any way on their participation in the mandatory elements of the main Event, including briefings, podiums, press conferences etc.

Any breaches of these rules will be reported to the Stewards. Penalties may go as far as disqualification from the Competition.

31.2 Cars are expected to remain at the track from the time they are scheduled to undergo Scrutineering until the end of the Competition. Exceptions, as specified in advance by the Promoter, may include Parades, Car Exhibitions and Demonstrations taking place outside the circuit or neighbouring areas. Should a Parade be scheduled as part of the Event, any cars not attending will be under Parc Fermé conditions while the remainder of the cars are absent. Cars not attending any mandatory Parades for which they are required will be reported to the Stewards.

31.3 Autograph sessions may be scheduled during the Event at the time given in the Official Timetable. Drivers are expected to attend any such sessions, dressed in Team uniform, at the scheduled time, and to make themselves available for the full duration.

31.4 Not in use

32. GENERAL CAR REQUIREMENTS

No signal of any kind may pass between a moving car and anyone connected with the car's Competitor or Driver, save for the following:

- Legible messages on a pit board;
- Body movement by the Driver;
- Lap trigger signals from the pits to the car.

Lap marker transmitters must be battery-powered and, once operating, must be free-standing (not attached to any other pit equipment by means of wires or optical fibres) and incapable of receiving external information. Such lap triggers must use a transmitter operating with a carrier frequency above 10 GHz (radio or optical) and a beam half angle of no more than 36° when measured at the 3dB point, and must not be used for the transmission of any data from pit to car other than the lap mark. Lap mark data must be transmitted repeatedly and must be demonstrably consistent;

- Verbal communication between a Driver and his Team by radio;

The following are not allowed;

- Electromagnetic radiation between 2 and 2.7 GHz is forbidden, save with the written consent of the Promoter
- Telemetry

IMPORTANT: no item, installation or antenna is permitted which may interfere at any time with the Official data logger, timing, GPS, radio or TV systems.

No equipment may be positioned on top of the pit wall or any adjacent structure, unless securely fixed to the satisfaction of the Officials.

33. GENERAL SAFETY

33.1 Official instructions will be given to Drivers by means of the signals set out in Appendix H of the Code. Competitors are responsible for observing and complying with these at all times and must not use flags similar in any way whatsoever to these. At circuits where flag signals are supplemented by light panels/signals, both means of signalling will be deemed to have regulatory value. For reasons of safety, in case of conflicting signals between the flags displayed by marshals and the light panels/signals, drivers must comply with the requirements of the signal with the highest level of safety.

33.2 Drivers are strictly forbidden to drive their car in the opposite direction to the race unless this is absolutely necessary in order to move the car from a dangerous position and in accordance with the instructions of the marshals.

A car may only be pushed to remove it from a dangerous position as directed by the marshals.

33.3 Any Driver intending to leave the track must signal his intention to do so in good time, making sure that he can do this without danger.

33.4 During practice and the races, Drivers may only use the track and must at all times respect the provisions of the Code relating to driving behaviour on circuits.

33.5 A Driver who abandons a car whilst on the track must leave it in neutral or with the clutch disengaged and with the steering wheel in place.

33.6 Repairs to a car may only be carried out inside or outside the pits, on the working lane or as provided for in Article 47.

On the starting grid before the three-minute signal, the team may check and adjust tyre pressures and cover the car in case of rain.

A Driver who manages to repair the car after it has been pushed to a place of safety, with or without remote assistance from their Team, may rejoin the session.

33.7 The Organiser must make at least two fire extinguishers of 5 kg capacity available at each pit garage and ensure that they work properly.

33.8 Save as specifically authorised by the Code or these Sporting Regulations, no one except the Driver may touch a stopped car unless it is in the Team's designated pit garage area, in the pit lane or on the starting grid.

33.9 At no time may a car be reversed in the pit lane under its own power.

33.10 Drivers must use the track at all times and should not leave the track without justifiable reason.

The white lines defining the track edges are considered to be part of the track but the kerbs are not. A Driver will be judged to have left the track if no part of the car remains in contact with the track. Should a car leave the track for any reason the Driver may rejoin.

However, this may only be done when it is safe to do so and without gaining any advantage.

Drivers consistently crossing the white lines defining the edge of the circuit, whether or not they gain an advantage, will be stopped during the free practices, have their lap time(s) deleted during qualifying and may receive a drive-through penalty during the race. The Stewards can apply any other penalty available.

At the absolute discretion of the Race Director, a Driver may be given the opportunity to give back the whole of any advantage he gained by leaving the track.

Notifications will be for the car, not the Driver.

The Race Director and/or the Stewards may use any video, electronic or other means to assist them in reaching a decision, in addition to or instead of Judge of Fact reports.

33.11

a) During the periods commencing 15 minutes prior to and ending 5 minutes after every practice session, and the period between the commencement of the formation lap(s) which immediately precedes the races and the time when the last car enters the Parc Fermé, no one is allowed on the track with the exception of:

- Marshals or other authorised personnel in the execution of their duty;
- Drivers when driving or under the direction of the marshals;
- Team personnel when either pushing a car or clearing equipment from the grid after all cars able to do so have left the grid on the formation lap.

b) At any time during the Competition, a Driver may join the track, including the pit lane and the grid, only after starting the engine alone and unaided, and leaving his working area with no external assistance.

c) During the Race, the engine may only be started with the starter except on the grid or after a stop-and-go penalty, where the use of an external starting device is allowed. The car must leave its position in the pit lane with no external intervention. Any car reported to have received assistance to start will be given a stop-and-go penalty, during which the car must be started by the Driver alone.

d) A car may only leave its working area when it is ready to rejoin the track and must proceed down the pit lane respecting the pit lane speed limit, without slowing or stopping, except for force majeure.

33.12. Drivers taking part in free practice, qualifying practice and the races must always wear the clothes, underwear, helmets, and FIA-approved frontal head restraint (FHR) specified in Appendix L to the Code and Article 26.7.

33.13 A Driver coming into the pits must not unfasten his safety harness or racing net until his car is completely stopped in front of the pit garage. After a pit stop, the car must only start moving after the Driver's safety harness and racing net have been fastened. It is the car controller's responsibility to ensure that a Driver is properly buckled in before the car leaves its working area to enter the track.

While driving in the fast lane of the pits, the Driver must have at least one hand on the steering wheel at all times. He may unplug the radio or disconnect the drinks bottle and other such items but should not be distracted from watching the road ahead while doing any of these things. Tension in the belts may be loosened but the belts must remain in contact with the Driver so that they are considered to still be properly restrained in accordance with ISC Appendix L chapter III Article 4. The Driver's safety harness must be securely fastened before the car leaves the Team's working area but, on exiting the pits, the Driver may further tighten the belts or adjust them. Any infractions may be reported to the Stewards.

For the avoidance of doubt, the dispensation granted under Article 33.13 for the adjustment of safety harness belts does NOT extend to the positioning of belts in relation to the FHR. The Driver must ensure that the harness and FHR are correctly positioned before leaving the working area and that the fitting of the harness and FHR meets the standards laid out in the International Sporting Code Appendix L Chapter III Article 3 at all times when the Driver is seated in the vehicle either on track or moving in the pit lane.

33.14 Extrication and Recovery exercises may take place before the Competition. Selected Teams will be notified by the Stewards and must make their car and any required personnel available at the stated time.

33.15 If a Driver has serious mechanical difficulties during practice or the races, he must leave the track or return to his working area as soon as it is safe to do so. At no time may a car be driven unnecessarily slowly, erratically or in a manner that could be deemed potentially dangerous to other Drivers or any other person. This will apply whether any such car is being driven on the track, the pit entry, the pit lane or the pit exit.

33.16 The car's regulatory lighting system must function at all times during each Competition. Any car that does not present the minimum illumination listed below, may be stopped by the Clerk of the Course for repairs:

- At the Front: 2 headlights (right and left) and 2 direction indicators
- At the Rear: 2 lights, 2 direction indicators and 2 stop lights / brake lights.
- Also, should the weather conditions deteriorate, the rain light.

33.17 Drivers should not flash their headlights (main beams) as a warning or indication more than 3 times in succession between any two successive corners. Any car reported to have exceeded this number of flashes will be given a warning. A second infraction for any car during the same session will result in a drive-through penalty.

33.18 Not in use

33.19 The car's headlights, red rear lights and rear rain light must be illuminated at all times when it is running on a track that has been declared a "wet track". It shall be at the discretion of the Race Director to decide whether a Driver should be stopped because his car's lights are not working. If a car is stopped for that reason, it may re-join the Competition once the fault has been remedied.

Once a session or race has been declared Wet, it remains Wet for the remainder of the session or race. However, instructions will be issued from Race Control to indicate when lights can be switched off. Should conditions improve sufficiently, the Race Director may also instruct that rain lights must be switched off.

33.20 Not in Use

33.21 A maximum of four working Team members per participating car are allowed on the pit wall signalling area reserved for the Team during practice and the race(s). People under 16 years of age are not allowed in the pit lane, on the pit wall or on the grid, except during the 'pitlane walkabout' or the 'grid walk' when they may be allowed if accompanied by an adult and if authorised by the circuit. Personnel must adhere to the regulations concerning clothing and helmets according to Article 12.2. Infractions will receive penalties from the Stewards.

33.22 Animals, except those which may have been expressly authorised for use by security services, are forbidden in the pit area, on the track and in any spectator area.

33.23 The Stewards, the Race Director, the Clerk of the Course or the Chief Medical Officer can require a Driver to undergo a medical examination at any time during an Event. This examination may include, if appropriate, a test for alcohol.

33.24 At the end of any session or race, each Driver may cross the Line only once.

33.25 Failure to comply with the general safety requirements of the Code or these Sporting Regulations may result in the disqualification of the car and Driver concerned from the Competition.

34. PIT LANE, PIT GARAGES AND PIT LANE ALLOCATION

34.1 The allocation of pit garages, where available, will be done according to the decisions of the Promoter or Event Organiser according to commercial, sporting or other reasons. When the number of pit garages is lower than the number of cars entered, the Competitors will have to share pit garages.

Teams must abide by the pit garage allocation document issued by the Promoter for each Event with each car placed in the corresponding pit garage.

34.2 The installation of Teams and their equipment in the pit lane and working lane will take place subject to the approval of the Race Director and/or the Pit Lane Supervisor, whose decision is final.

34.3 The working area for each Team will be in front of the allocated pitlane space or where applicable their allocated pit garages and will be the only working area for all of its cars. The limits of the area allotted to each Team may be indicated or marked on the ground by the Pit Lane Official in consultation with the Race Director.

34.4 For the avoidance of doubt and for description purposes, the pit lane shall be divided into two lanes. The lane closest to the pit wall is designated the "fast lane", and the lane closest to the pit garages is designated the "working lane" and is the only area where any work may be carried out on a car. The "working lane" is formed on one side by a line painted in front of the pit building and on the other by a line separating it from the "fast lane".

34.5 Competitors must not paint lines on any part of the pit lane. Any markings made with tape must be removed at the end of the Event.

34.6 Smoking, making fire and welding are all strictly forbidden in the pit lane working zone as well as within a six-metre radius. No welding operations can be carried out within this perimeter, and no devices generating sparks will be allowed in this area.

34.7 LPG gas cylinders and accessories are strictly forbidden in the pit lane, in the pit garages and for a distance of at least five metres behind the pit garages, as well as inside the Competitors' trucks. Any infractions may result in a penalty.

34.8 An inventory may be carried out on the pit garages and surrounding areas. All damage caused will be invoiced to the Competitor.

34.9 Teams must be considerate towards other Series taking part in the same Event. Equipment (other than gantries and refuelling rigs) must not be left outside the garages between sessions. Unless otherwise indicated by the Organisers or Stewards, garage doors must be opened before the start of the first track session of each day and left open until the end of that day's track action, in accordance with the Official Timetable. Any additional regulations at an Event concerning restrictions and access for support race staff will be issued in a Communication from the Race Director or a Bulletin from the Stewards.

34.10 Pit Installations including folding brackets and flexible air, fuel or lighting mountings must not exceed the width of the working area, nor may they be less than two metres above ground level. Support arms must be suspended and fastened by chains or wire cables. Lighting arrays must be directed towards the interior of the working area. Lighting equipment must not face the oncoming traffic. It must be low-temperature, flame-proof and must not be located less than 50 cm away from the refuelling pipes and tower. Halogen lights are not authorised. Equipment on the pit signalling area must be sufficiently rigid, be made from translucent material and must not extend beyond the base of the signalling wall. Sunshades, parasols and umbrellas are prohibited. Material fixed onto the signalling wall must not cause any damage. All advertising or promotional material on the signalling wall or the sides or top of the Competitors' boxes is prohibited, with the exception of the equipment from the Organisers.

34.11 A speed limit of 50.00 km/h will be enforced in the pit lane. Any Driver exceeding this limit will be reported to the Stewards. In Free Practice, Pre-Qualifying and Qualifying, teams will be warned between 50.1 and 50.99 km/h. From 51 km/h, penalties will be imposed with a fine of 50€ per kilometre over the 50.0 km/h speed limit. Second and subsequent offences may lead to additional penalties. During the race a penalty up to a drive-through penalty will be given.

34.12 Unless a car is pushed from the grid at any time during the start procedure, cars may only be driven from the Team's designated pit garage area to the end of the pit lane.

34.13 Any Driver intending to start the race from the pit lane should not drive his car from his Team's designated pit garage area until the pit exit is closed and must stop in a line in the fast lane.

34.14 No equipment may be left in the fast lane. A car may enter or remain in the fast lane only with the Driver sitting in the car behind the steering wheel in his normal position, and under its own power.

34.15 A maximum of five minutes before the start of any practice session or qualifying session, cars may be allowed to drive from their allocated working area to queue in the fast lane. Cars may only leave their working area to queue after an instruction of 'FAST LANE OPEN' has been given on the timing monitors and/or the Team radio. Should it not be possible to give this instruction, cars should not move until the light at pit lane exit is green.

Cars moving from their working area before they have received either the 'FAST LANE OPEN' instruction or a green light at pit exit may be reported to the Stewards. This also applies after a red-flag interruption to a practice or qualifying session.

34.16 It is the responsibility of each Competitor to release his car after a pit stop only when it is safe to do so. Cars in the fast lane have priority over those rejoining from the working lane. Once a car has left its garage or pit stop position it should blend into the fast lane as soon as it is safe to do so, and without unnecessarily impeding cars which are already in the fast lane. Cars must move completely from their working area to the fast lane prior to exiting the pit lane across the pit lane exit loop. Cars may only leave the fast lane to move into the working lane a maximum of three pit garages / working areas before their own working area.

34.17 Cars must not be released from a garage or pit stop position in a way that could endanger or unnecessarily impede pit lane personnel or another driver. Cars may not be released from a garage or pit stop position in an unsafe condition. A car will be deemed to have been released either when it has been driven out of its designated garage or after it has moved from its pit stop position. Equipment or tyres may not be left in the pit lane in a manner that would endanger or unnecessarily impede pit lane personnel or another car. Any infractions will result in a penalty.

34.18 During any practice, qualifying or race, cars may only leave their working area when they are ready to rejoin the track.

They must proceed down the pit lane at a suitable pace, without slowing or stopping except in cases of force majeure, while respecting the pit lane speed limit. Except for safety reasons, recognised as such by the Stewards, cars must not stop in the fast lane, or proceed at low speed.

Cars in either the fast lane or working lane may not overtake other cars in the fast lane except in exceptional circumstances e.g., a slow car with an obvious mechanical problem, a stopped car, an obstacle.

34.19 At all times when the cars are allowed onto the track:

- a) No tools or equipment may be left in the working area once a pit stop is over.
- b) At the start of any session, during any session or stoppage and during the periods between Q1, Q2 and Q3, cars must be at an angle of 45 degrees, nose towards pit exit and should stop parallel to the pit building for pit stops at other times.
- c) At all times, cars must be pushed in front of the pit/garage and the engine must be restarted by the Driver alone, and the car must leave the working area with no external assistance.
- d) During Qualifying, any car which stops around the track and is brought back to the paddock by external means will be placed in Parc Fermé and will not be allowed to take part in the rest of the session. This applies even if the car, for any reason, is returned to the Team. Cars which are able to rejoin after external assistance and return to the pit lane via the track may take part in the rest of the session.

35. FUEL

35.1 The official fuel supplier will be TotalEnergies and only the fuel purchased according to the method indicated in Appendix 7 may be used by any Competitor at any point during the Competitions, from free practice onwards, and including any official test sessions held before and during the season. The specification of the fuel is given in Appendix 7. No other fuel is authorised for use in the cars entered in the Competition. The onus will be on the Competitor to ensure that there are no residual traces of non-approved fuels remaining in tanks/fuel systems at an Event.

35.2 All fuel used during the Competition must be purchased from the official fuel supplier. Fuel samples will be checked at random.

Any infractions will be reported to the Stewards with penalties which may go as far as disqualification. In addition to samples taken by the Technical Scrutineers, the official fuel supplier (or its nominated representative) may take fuel samples for commercial purposes after free practice sessions 1 or 2. Any cars selected will be placed in Parc Fermé conditions in their awnings after the sessions and teams will be notified

by means of the Timing Screen and/or the Team Messaging Application. The nominated representative from the official fuel supplier will be accompanied by an SRO Pit Lane Official to take the samples. Any refusal to comply with this procedure or any breach of Parc Fermé conditions will be reported to the Stewards. Any issues arising from the subsequent analysis of such samples will be dealt with by the Promoter. Correlations between the amount of fuel purchased and the kilometres driven on track during the Competition may also be analysed-

35.3 Fuel Rigs

Fuel rigs are defined by drawing 252-7 in the Technical Regulations for GT4 Grand Touring Cars and described in Article 6 of this document.

In accordance with Article 6.1 of the 2023 Technical Regulations, the tank must have a simple cylindrical internal shape and must not have any additional internal parts that could improve the flow.

The tolerance on bottom flatness must be less than 3mm inside the tank. The connectors and couplers must stay as they were supplied by the suppliers.

35.4 Refuelling may only take place in the team's allocated area in the paddock, under full security procedures. Teams must abide by the paddock instructions issued at each Event.

35.5 Not in Use

35.6 General fuel precautions

Whenever fuel is being manipulated, the Competitor must adopt appropriately safe working practices. Any unsafe handling may be reported to the Stewards.

36. PIT STOPS – GENERAL

36.1 No work can be carried out on the car and no change of Driver can take place until the car has come to a complete stop at its designated working area, and its engine is switched off. Except when work is being carried out on the car, all personnel must remain behind the white line designating the start of the working lane or on the pit wall.

During any pit stop during the race, the Driver being replaced may help the replacement Driver to install himself in the car but cannot work on the car.

36.2 For any pit stop, cars must stop a minimum of 50 cm from the white line designating the start of the working area.

Should a car overshoot its pit garage, it may be pushed back to its location by the mechanics, under supervision of the marshals with yellow flags.

36.3 Only the car controller and the replacing Driver are allowed in the working area before the car has stopped and a maximum of one lap before the pit stop of the car. If applicable, the vent man may enter the pit lane shortly before the arrival of the car (see Article 37.1).

36.4 No equipment must be in the working area before the car has stopped in front of the pit garage.

No personnel may hold panels on the working lane or stand behind stationary panels. No lollipops or panels may be fixed or shown from the pit wall towards the pit lane. Team personnel may use lollipops to indicate to the cars from the working zone.

Team personnel and equipment must withdraw as soon as the work is complete.

36.5 Number of personnel

No more than four mechanics may be in the working lane at any one time.

One car controller (the 5th member), wearing a white armband, may stand at the front of the car and oversee the work of the mechanics. He may walk around the car but must not touch the car in any way and may only make visual checks.

36.6 Clothing

Each Competitor must ensure that its mechanics and Car Controller wear flame-resistant overalls, long underwear including balaclava, gloves, socks and shoes and suitable helmets while they are working on the pit lane. Flame-resistant shoes are mandatory for all those wearing armbands. Eye protection in the form of visors or safety glasses is highly recommended for all personnel in the working lane, and mandatory for those wearing armbands.

36.7 Carry-on / backpack compressed air bottles for tyre changes are not permitted. Hoses, cables etc must not be attached to the mechanics' overalls by any means. No autonomous equipment may operate without its mechanic. However, compressed air bottles may be transported to the grid via a trolley.

36.8 During any pit stop, without exception, the Driver is obliged to turn off his engine. For any tuning or regulating, the engine may be started with the help of an auxiliary source of energy. However, before the car is ready to rejoin the track, the engine must be switched off. Other than for tuning or regulating, the car's engine may be restarted only when the car is about to join the track and is in contact with the ground, on all four wheels. The car must leave the working area with no external assistance.

36.9 Any breach of the provisions of the Code or these Sporting Regulations relating to pit lane assistance will entail penalties at the discretion of the Stewards, up to the disqualification of the car and Driver(s) concerned from the Competition. The Organiser must ensure that a sufficient number of marshals have been designated to carry out all the work and controls necessary in the pit lane.

36.10 During sessions, cars may be placed on skates in the working lane when they need to be moved with the exception of the end of the session during Qualifying (see Article 41.7 c)) or Article 37 when refuelling. In terms of refuelling, once the nozzle, refueller and refuelling equipment are out of the working zone, skates may be placed under the car. This does not affect the use of skates for moving the car at other moments.

36.11 All personnel in the working lane during pit stops must wear an armband. If not otherwise specified in the regulations, this will be a yellow armband. This does not include personnel crossing between the pit wall and the garage.

37. REFUELLING

37.1

With the sole exception of the qualifying session, refuelling is allowed from the green light at the start of any session only in the designated working area on the pit lane and must be carried out only at the beginning of a pit stop (with the exception of the situation provided for in Article 39.4)

Refuelling in the pit lane may only take place using the fuel rig as outlined in Article 35.

Refuelling is allowed in the pit lane by means of a refuelling tower with a maximum of one independent tank per car entered in the Competition and a maximum of two independent tanks per garage. These tanks must not move, either independently or through any other means, during any sessions, with the sole exception of allowing a car to be pushed into the garage.

Cars may refuel at any refuelling rig belonging to their Team (see article 11.4) and which has their race number on it. A team must include on each rig all the numbers of the cars eligible to refuel there. This includes all cars entered on the same licence, or those entered on a different licence but run by the same technical management. A Team must declare to the Promoter the cars which it is running, whether on their own licence or another and this will be forwarded to the Stewards. Any car refuelling at the wrong rig will be reported to the Stewards.

1) Before and during any refuelling operation, the car must be electrically earthed by means of an independent copper wire, whose only purpose is to earth the car, and which must not be combined with the air jack. This must be placed by a mechanic with a green or yellow armband, who may be the mechanic charged with helping the driver. It must be removed by one of the people authorised to be working on the car at the point once refuelling is finished and the earthing wire can be removed.

2) While refuelling is being carried out, the driver may stay in the car, or driver changes may take place, but in all cases the engine must be switched off. The coupling of the fuel hose to the car may only take place when the car is fully stationary and with the engine stopped. In no case may a car be refuelled whilst on skates or when skates are under the car.

If tyre changes are to take place and the car is lifted onto its jacks, the car must remain on its jacks until refuelling has finished and the fuel hose has been removed. Any attempt to lower the car before the refuelling has finished and the hose has been uncoupled will be reported to the Stewards.

If no tyre changes are planned to taking place, the car is allowed to remain on the ground for the refuelling procedure

3) The refuelling of the tower is prohibited while the car is being refuelled.

4) Personnel for refuelling:

a. 1 Car Controller with a white armband.

b. A maximum of 2 mechanics, to include:

a) The fuel attendant, identified with a green armband, wearing a helmet with a visor, incapable of being confused with drivers' helmets and homologated to one of the standards recognised by the FIA in Technical List n°25.

b) 1 mechanic who may wash/clean the windscreen and lights, remove dirt or grass from the radiator grille, change the water bottle or assist the drivers during the driver change. Removing a tear-off film is considered to be cleaning the windscreen.

As well as the following who are not considered among the working mechanics

c) 1 'fire' attendant, whose presence is compulsory, standing behind the line throughout refuelling and holding an extinguisher of a minimum capacity of 5 kg ready for use. He is not considered to be one of the four mechanics and as such does not wear an armband. He cannot perform any other activity.

d) The so-called 'dead man' controlling the fuel flow shut-off valve at the refuelling tower, whose presence is compulsory and who will not be considered as one of the four working mechanics. He must not undertake any other task. However, he must be suitably attired in fireproof overalls and with a helmet homologated to one of the standards recognised by the FIA in Technical List n°25.

e) Note: for cars which have the vent valve and the refuelling valve on opposite sides of the car, if a vent man is required he may enter the pit lane shortly before the arrival of the car. Once his task is finished, the vent man will be considered a second 'dead man'. The vent man should wear an orange armband and is not considered as one of the four working mechanics.

c. The driver exiting the car may assist the driver replacing him.

d. A Data Technician may download data from the car by cable, card or data stick without performing any other task. The Data Technician does not require an armband. If the Data Technician is in the working lane they need to be fully dressed in accordance with article 36.6.

e. All other Team members standing in the working area ('working lane', Article 34.4), as defined in the briefing notes at that Event and separating the pit from the fast lane, will be considered as working on the car and as such will be counted as mechanics, as will a driver if he performs any work on the car.

f. 1 'tyre' technician and 1 'brake' technician external to the Team may, without intervening or working on the car, proceed to conduct visual checks as well as with a temperature probe or pressure gauge. They will wear an armband in accordance with Article 12.4.

5) After refuelling, the fuel contained in the overflow pipe must be poured into a container provided by the Competitor which must be capable of holding 5 litres at least, graduated and fitted with a coupling

38. TYRE CHANGES

38.1 Tyre changes may only be carried out on the car in the pits/working area of the pit lane and parallel to the pit lane, after refuelling is finished and the equipment and personnel have been removed from the working area. Only ambient pressurised air can be used to fill the tyres or operate the air guns.

Personnel authorised in the pit lane working area for tyre changes :

- 1 Car Controller (white armband)
- 3 Mechanics working on changing the tyres (green armbands)
- 1 additional mechanic (orange armband)

No work can be carried out on the car and no change of Driver can take place until the car has come to a complete stop at its designated working area and its engine is switched off.

Except when work is being carried out on the car, all personnel must remain behind the line designating the start of the working lane or on the pit wall.

A maximum of 3 mechanics, clearly identified for the whole procedure wearing green armbands (the same three mechanics must carry out the whole operation, having no possibility to swap their armband) are allowed to carry out any operations needed to change the tyres. These three people may enter the working area and start these operations only once the car has stopped in front of the pit garage, with the engine off. They must respect the following:

- A maximum of one air gun for central locked wheels or two air guns for wheels locked by nuts and bolts may be in the working zone at any time.
- The use of a torque wrench is allowed.
- They must take the new wheels and put the replaced ones inside the pit,
- They must carry permanently the detached wheels when they are outside the pit. However, in order to facilitate the wheel changes, it is possible to lay them flat on the ground near the car.
- They must not throw the wheels or drop them,
- They must take all the equipment back inside the pit.

For the avoidance of doubt, the limitation on the number of wheel guns applies to all sessions and races. It further applies irrespective of whether a team changes tyres or simply removes and replaces the same tyres. The maximum number of wheel guns stated must not be exceeded in the working zone at any time, whether the additional wheel guns are used or not.

Any other Team members standing in the working area (working lane, Article 34.4) will be considered as mechanics and working on the car, as will a Driver if he performs any work on the car. A penalty may be imposed on a Team for any additional Team member in excess of the persons authorised above.

One mechanic with an orange armband may wash/clean the windscreen and lights, remove dirt or grass from the radiator grille, change the water bottle or assist the Drivers during the Driver change. Removing a tear-off film is considered to be cleaning the windscreen. Replenishment of lubricant and various fluids, without fuel, is allowed during the free and qualifying practice and race.

- If authorised, a Data Technician may download data from the car by cable, card or data stick, without performing any other task
- 1 'tyre' technician and 1 'brake' technician external to the Team may, without intervening or working on the car, proceed to conduct visual checks as well as with a temperature probe or pressure gauge. They will wear an armband in accordance with Article 12.4.

38.2 The car cannot leave the pit working area until all personnel and equipment are no longer in the working area. For the purposes of this Article, 'personnel' includes the tyre and other pit stop personnel but does not include the Car Controller (who has to be in the working zone for the release of the car) or the exiting Driver.

39. OTHER OPERATIONS IN THE PITS

39.1 Other operations, including replenishment of lubricants and various fluids, may be carried out on the car in the working lane.

For free practice and qualifying these operations must be carried out in the pits/working area of the pit lane and parallel to the pit lane. Whenever possible, all cars will park parallel. Unless there are extenuating circumstances, a Bulletin will be issued by the Stewards and the Race Director will advise during the Team Managers' Briefing.

40. REPLACEMENT OF MECHANICAL PARTS

During the Event, it is forbidden to replace the following parts on pain of a penalty which may go as far as disqualification:

- The engine, i.e. the turbo(s), the cylinder head(s), cylinder head cover(s), oil pan and engine block, parts that may be attached by means of seals,
- The chassis or the monocoque structure.

Changes which take place before Qualifying may be subject to lower penalties, at the discretion of the Stewards.

Changes after the start of Qualifying will be subject to a minimum penalty of a drop of 10 grid positions and a maximum penalty of an obligation to start the race from the pit lane. Changes of individual parts of the engine that may be attached by seals, such as the turbo(s), may be subject to lower penalties at the discretion of the Stewards.

41. FREE PRACTICE AND QUALIFYING PRACTICE

41.1 Save where these Sporting Regulations require otherwise, pit and track discipline and safety measures will be the same for all practice sessions as for the races.

41.2 No Driver may take part in the Race without having taken part in qualifying practice, except in a case of force majeure duly recognised as such by the Stewards. Drivers who set a time within 120% of the fastest qualifying time during free practice may be authorised by the Stewards to take part in the race.

41.3 During the free and qualifying practice sessions;

- Controls on the tyre markings may be carried out before the cars take to the track under the orders of the marshals, and there will be a green light and a red light at the pit lane exit.
- Cars may only leave their working area according to the procedure detailed in Article 34.15. Cars may only leave the pit lane when the green light is on at the start or restart of a session.
- A blue flag or a blue flashing light will be shown at the pit lane exit to warn Drivers leaving the pit lane if cars are approaching on the track.

41.4 Event format

There will be one free practice session of a maximum of 90 minutes.

There will be one pre-qualifying session of a maximum of 90 minutes. There will be no Parc Fermé after these sessions unless requested by the Stewards or as provided for in Article 35.1.

There will be one 60-minute qualifying practice session, divided into three periods with a break between each one and the next. Except for cases of force majeure, recognised as such by the Stewards, all drivers must complete at least one timed lap, not including in and out laps, during one qualifying period in order to qualify for the race.

Cars with permission to race with two drivers according to Article 13.1.1 b must follow the requirements detailed in that Article concerning the designation of Driver 1, Driver 2 and Driver 3, as well as any requirements in the confirmation document from the SRO Sporting Board.

Qualifying will take place as follows :

- a) From 0.00 to 0.15 (Q1) all cars driven by 'Drivers 1' will be permitted on the track using the tyres nominated as S1. The best time for each driver, which must be within 120% of the best time of the Q1 period, will be considered as T1.
- b) From 0.22 to 0.37 (Q2) all cars driven by 'Drivers 2' will be permitted on the track using the tyres nominated as S2. The best time for each driver, which must be within 120% of the best time of the Q2 period, will be considered as T2.
- c) From 0.45 to 1.00 (Q3) all cars driven by 'Drivers 3' will be permitted on the track using the tyres nominated as S3. The best time for each driver, which must be within 120% of the best time of the Q3 period, will be considered as T3.

Important : Driver 1, Driver 2 and Driver 3 must be in accordance with the driver order declared.

For cars which set qualifying times in all three periods, their qualifying time will be the average of T1, T2 and T3 and their Qualifying Ranking (QR) will be 1.

For cars where drivers fail to set a qualifying time in one of the periods, the qualifying time will be the average of the two remaining times and the car's Qualifying Ranking (QR) will be 2

For cars where drivers fail to set a qualifying time in two of the periods, the qualifying time will be the remaining time (T1, T2 or T3) and their Qualifying Ranking (QR) will be 3.

For cars which fail to set a time in any of the periods, their Qualifying Ranking (QR) will be 4 and they will be subject to receiving permission to start from the Stewards, with their respective order determined by the Stewards.

The overall results of the qualifying session will be determined first by QR, and then by the average time set by each car as listed above.

In cases where two or more cars with the same QR set the same average time, the order will be determined by the faster individual time between the cars, set in Q1, Q2 or Q3.

From the start of Q1 until the end of Q3 the following principles will apply :

- Any car which is pushed into its pit garage during that time will have all its times deleted until that point and will not be able to take any further part in the qualifying session.
- No fuel can be added or removed from the cars
- No computers can be connected to the cars from the start of Q1 to the end of Q3. This includes connecting data sticks, adding or removing data cards as well as wireless connections of any kind from the Team/pit to the car.
- No blowers or fans may be used on or near the car.
- Skates may be used to move cars in the working lane during or between qualifying periods from the start of Q1 until the start of Q3 but must not be used during the Q3 period or to put the car into Parc Fermé at the end of Q3.
- No external batteries may be plugged in.
- Only the following work can take place on the car;
 - o Cleaning windscreens (inside and outside) and mirrors.
 - o Changing tyres
 - o Changing drivers.
 - o Checking and adjusting tyre pressures.
 - o Engine fluids may be replenished; fluids used for replenishment must conform to the same specification as the original fluid.
 - o Removing dirt, gravel or grass from the radiator.
 - o Adjusting mirrors or other similar adjustments for safety reasons.
 - o Repair of genuine accident damage with the approval of the Technical Delegate.

Should any other work be performed on the car, all times set until that point during the qualifying session (i.e. from the start of Q1 up until that point) will be deleted.

After the completion of Q3, all cars will be immediately under Parc Fermé conditions.

These regulations also apply during any red flag period during qualifying, unless otherwise indicated by the Race Director or Stewards.

41.5 Not in Use

41.6 Not in Use

41.7 Not in Use

41.8 In the event of a driving infringement during any practice session, the Stewards may delete laps or drop the Driver as many grid positions as they consider appropriate. Unless it is absolutely clear that a Driver committed a driving infringement, any Incident will normally be investigated after the relevant session. Any determination of breach in this respect, or the consequent penalty imposed, shall not be subject to appeal.

41.9 If a car stops during practice, it must be removed from the track as quickly as possible so that its presence does not constitute a danger or hinder other Competitors. If the Driver is unable to drive the car from a dangerous position, it shall be the duty of the marshals to assist him.

The car may also be moved with help other than that of the marshals (i.e. any equipment, e.g. tractor, etc.) and re-join the session.

Any Driver taking part in any practice session who, in the opinion of the Stewards slows or stops unnecessarily on the circuit or unnecessarily impedes another Driver, shall be subject to the penalties in accordance with Article 41.8.

41.10 The Race Director, his Deputy or the Clerk of the Course may interrupt practice as often and for as long as he thinks necessary to clear the track or to allow for recovery of a car. Furthermore if, in the opinion of the Stewards, a stoppage is caused deliberately, the Driver concerned may have his times from that session deleted (in substitution or in addition to other available penalties) and may be prohibited from taking part in any other practice session that day.

41.11 Should the qualifying sessions be thus interrupted, no protest or appeal can be accepted as to the possible effects of the interruption on the qualification of Drivers admitted to start.

41.12 All cars abandoned on the circuit during the free practice or pre-qualifying sessions will be brought back to the paddock as soon as possible and may participate in the remainder of the session. However, during qualifying, if a car is brought back to the paddock on a truck or other recovery vehicle it will be placed in Parc Ferme and not be allowed to take any further part in that qualifying session or combination of qualifying sessions.

41.13 With the exception of a lap in which a red flag is shown, each time a car crosses the Line it will be deemed to have completed one lap.

41.14 In all qualifying sessions, the Driver designations as Driver 1, Driver 2 and Driver 3 must be in accordance with the Driver order declared by the Team before the end of Administrative checks. Changes to this order once published may only be authorised by the Stewards in accordance with Article 13.2 d). Only one Driver may compete in any one qualifying session. No Driver may compete in more than one qualifying session. Any changes from the declared order will be reported to the Stewards and the qualifying times may be deleted.

42. STOPPING A PRACTICE SESSION

42.1 Should it become necessary to stop any practice session because the circuit is blocked by an accident or because weather or other conditions make it dangerous to continue, the Race Director or, in his absence, his Deputy or the Clerk of the Course shall order a red flag and the abort lights to be shown at the Line. Simultaneously, red flags will be shown at all the marshal posts. If red lights are available, these will be switched on as well.

When the red flag is deployed, all cars shall immediately reduce speed to 80 km/h. The cars shall proceed back to the pits (or any other place indicated by the Race Director) with extreme caution and no overtaking.

Any cars already moving towards the pitlane exit will be held at the red light until the session is restarted. Cars held at the pitlane exit may be pushed (not driven) back to their garage location by the mechanics, under supervision of the marshals with yellow flags.

All cars abandoned on the track will be moved to a safe place. Stopping in the fast lane is not permitted. After a red flag has been deployed, cars may only leave their working area in accordance with Article 34.15.

42.2 The fastest lap set so far in the session by the car determined to have been responsible for causing an incident or situation which resulted in a red flag will normally be deleted by the Race Director, unless he considers this to be a case of force majeure. Should the Competitor consider this to be unjustified, due to exceptional circumstances, they may present their case to the Stewards.

43. GRID

43.1 At the end of the qualifying practice, the average time calculated according to the times set by each car in Q1, Q2 and Q3 will be published officially.

The starting grid for the race will be drawn up according to Article 41.4.

Once the grid has been established in accordance with the Articles above, grid position penalties (if any) will be applied to the drivers in question in the order in which the related offences were committed. Should, for any reason, it be impossible to hold the qualifying session, or the qualifying session is curtailed before times have been set, the results of the pre-qualifying session will be used to set the starting grid. If any one of the periods Q1, Q2 or Q3 cannot take place, the qualifying results will be based on the average time from each car based on the periods which have taken place. The drivers from the missing session will be qualified to take part in the race as long as they have set a time in free practice or pre-qualifying according to Article 41.2.

If two of the periods Q1, Q2 or Q3 cannot take place, qualifying will be based on the results of the remaining session. Drivers from the other periods would be qualified to take part in the race as long as they have set a qualifying time in free practice or pre-qualifying according to Article 41.2.

43.2 Not in Use

43.3 Not in Use

43.4 The pole position will be the position on the grid which was the pole position in the previous year, or, on a new circuit, which has been designated on the FIA circuit licence.

43.5 Any Driver who has not qualified for a race and who has failed to set a time in either of the free practices at that competition within 120% of the fastest time in the relevant session may nevertheless be allowed by the Stewards to take part in the warm-up (if applicable) and/or in the race(s). Where such a Driver has set a lap time within the 120% limit in a free practice session, or warm-up during a previous Competition this may be taken into consideration.

Should more than one Driver be accepted in this manner, the Stewards will determine their grid order. In neither case may a Team appeal against the decision of the Stewards.

43.6 The grids will be in a 2 x 2 formation and the rows will be separated by at least 8 metres.

43.7 Any car which has not taken up its position on the grid by the time the 5-minute signal is shown will not be permitted to do so and must start from the pit lane.

43.8 The final starting grid for any race will be published at the latest one hour before the start of that race.

Any Competitor whose car(s) is/are unable to start one of the races for any reason whatsoever (or who has good reason to believe that their car(s) will not be ready to start) must inform the Race Director or Technical Delegate accordingly at the earliest opportunity and, in any case, no later than 70 minutes before the start of the race concerned.

If one or more cars are withdrawn, the grid will be closed up accordingly.

44. STARTING DRIVERS

44.1 Before the deadline specified on the Official Timetable, the Team Manager of each Competitor must inform the Promoter of the name of the driver who will take the start of the race.

Any request to change the starting driver after the deadline must be submitted to the Stewards, who will decide if the request can be accepted and who may impose a penalty.

Should the starting driver be changed without notification this will be reported to the Stewards and a penalty may be applied

45. STARTING PROCEDURE

45.1 At the time stipulated in the Official Timetable, the cars will leave the pits to cover a reconnaissance lap. At the end of this lap they will stop on the grid in starting order with their engines stopped. Only the nominated starting driver may drive the car for the reconnaissance laps.

Should they wish to cover more than one reconnaissance lap, this must be done by driving through the pit lane, respecting the pit lane speed limit, between laps.

Cars wishing to refuel may do so according to the refuelling regulations in force at that Competition according to Article 37.

Any car which does not finish the reconnaissance lap and does not reach the grid or the pit lane under its own power will not be permitted to start the race from the grid and, if able to do so, must start from the pit lane.

45.2 A maximum of 15 minutes after the pit lane opens, the pit lane will close. A warning signal announcing the closing of the pit lane exit will be given two minutes beforehand.

Any car which is still in the pits can start from the pit lane, but only under the direction of the marshals. It may be moved to the pit exit only with the Driver in position.

Where the pit exit is immediately after the Line, such cars will join the race when the whole field has passed the pit exit on its first racing lap.

Where the pit exit is immediately before the Line, such cars will join the race as soon as the whole field has crossed the Line after the start.

The remainder of the starting procedure will take place in accordance with the Official Timetable of the Event until the 10-minute signal.

45.3 Wheel changes on the starting grid will only be allowed, and must be completed, prior to the 3-minute signal. Wheels may only be brought onto the grid before the pit lane closes; this may be altered by a Bulletin from the Stewards depending on the Official Timetable of the Event.

45.4 The approach of the start will be announced by signals showing ten minutes, five minutes, three minutes, one minute and fifteen seconds before the start of the formation lap, each of which will be accompanied by an audible warning signal.

- When the three-minute signal is given, no more work can be performed on the car. All cars must be resting on their wheels on the ground and the wheels must have been tightened.
- After this three-minute signal is given, wheels may only be removed in the pits, except under Article 45.11.
- A penalty may be imposed on any Driver whose car did not have all its wheels fully fitted and/or did not have the car on the ground at the three-minute signal.
- Everybody except Drivers, Officials and maximum one (1) Team technical staff must leave the grid
- When the one-minute signal is given, engines must be started, and the last mechanic must leave the grid.

45.5 Fifteen-second signal: 15 seconds after this signal, a green flag/light will be shown at the front of the grid whereupon the cars will begin a formation lap with the Official Leading Car, maintaining their starting order. During this lap, practice starts are forbidden and the formation must be kept as tight as possible. The starting procedure of a Competition may be modified by the Appendix 1 or by Bulletin from the Stewards. Overtaking during the formation lap is permitted only if a car is delayed when leaving its grid position and cars behind cannot avoid passing it without unduly delaying the remainder of the field. In this case, Drivers may overtake only to re-establish the original starting order. Any driver delayed in this way, and who is unable to re-establish the original starting order before he has crossed Intermediate Timing Point 2 (the end of timing sector 2), or another location advised in the Race Director's briefing notes for the Event, must drop to the back of the grid and start the race from there.

Any Driver who is delayed leaving the grid should not overtake another moving car if he was stationary after the remainder of the cars had crossed the Line and must start the race from the back of the grid. If more than one Driver is affected, they must form up at the back of the grid in the order in which they left to complete the formation lap. If the Line is not situated in front of the pole position, for the purposes of this Article only, it will be deemed to be a white line one metre in front of pole position.

A drive-through penalty will be imposed on any Driver who, in the opinion of the Stewards, unnecessarily overtook another car during the formation lap.

Weaving is allowed on the formation lap up until the corner which will be indicated by the Race Director during the briefing. After this corner, no weaving is allowed and cars must line up two-by-two.

In accordance with Article 29.15, should the track temperature be lower than 10°C, there will be two formation laps.

The speed of the Official Leading Car should be around 80 km/h during the formation lap.

45.6 Any Driver who is unable to start the formation lap must indicate this to the marshals. When leaving the grid, all Drivers must proceed at a greatly reduced speed until clear of any Team personnel standing beside the track.

Marshals will be instructed to push any car (or cars) remaining on the grid into the pit lane by the shortest route as soon as all cars able to leave the grid have done so. Any Driver being pushed from the grid should not attempt to start his car until in the pit lane.

45.7 When all cars are lined up side-by-side for the start, the Official Leading Car will reduce the speed of the field to 50 km/h before pulling off the track into the pit lane. From that moment, the car on pole position will be in charge of the speed. The leader should then slowly increase his speed to a maximum of 110 km/h by the moment of the start.

During the briefing the Race Director may define a 'Starting Zone' from which point the start can be given. In this case, the cars will only be authorised to race and overtake once they have entered the zone.

Any divergence from the prescribed instructions before the start is given will result in the Driver(s) being referred to the Stewards who may issue a penalty.

During the formation lap the red light on the starting grid will be on. No car may overtake another one before the starting signal is given.

45.8 There will be a rolling start as described in the FIA International Sporting Code. Race timing will commence at the point that the race start signal (green light or other start signal as specified in the Drivers' Briefing) is given. Should an additional formation lap be carried out, Article 45.9 will apply.

During the start of a race, the pit wall must be kept free of all persons with the exception of properly authorised Officials and fire marshals, all of whom shall have been issued with and shall be wearing the appropriate pass. During a start behind Safety Car, the Team personnel may return to the pit wall once the cars have left the grid. In cases where two formation laps are scheduled in accordance with Article 29.15, the race timing will commence at the end of the second formation lap.

45.9 If a problem arises when the cars reach the Line at the end of the formation lap, the red light will stay on. Yellow flags will be displayed at all marshal posts. The cars, with the pole position leading, will complete a new formation lap.

The car on pole position will set the pace and the cars will continue for another formation lap.

Should such an additional formation lap be carried out, the race timing will commence at the end of the first formation lap.

45.10 A penalty may be imposed by the Stewards for a false start if so reported by Start Line Judges, Judges of Fact, the Race Director or the Starter.

45.11 Only in the following cases will any variation in the starting procedure be allowed:

- a) If it starts to rain after the five-minute signal but before the race is started and, in the opinion of the Race Director, Competitors should be given the opportunity to change tyres, the abort lights will be shown on the Line and the starting procedure will begin again at the 10-minute point.
- b) If the start of the race is imminent and, in the opinion of the Race Director, the volume of water on the track is such that it cannot be negotiated safely even on wet-weather tyres, the abort lights will be shown on the Line and information concerning the likely delay will be displayed on the timing monitors. Once the start time is known, at least ten minutes' warning will be given.
- c) If the race is started behind the Safety Car, Article 46.8 will apply.
- d) In certain cases, according to the Supplementary Regulations of the Event or by decision of the Race Director and the Promoter, a shortened starting procedure may be stipulated. In this case, a Bulletin will be issued by the stewards detailing the starting procedure.

45.12 The Stewards may use any video or electronic means to assist them in reaching a decision. The Stewards may overrule Judges of Fact. A breach of the provisions of the FIA International Sporting Code or these Sporting Regulations relating to starting procedure may result in any penalty up to and including the disqualification of the car and Drivers concerned from the Competition.

46. THE RACE

46.1 The race will not be stopped in the event of rain unless the circuit is blocked, or it is dangerous to continue (see Article 47)

46.2 If a car stops during the race, it must be removed from the track as quickly as possible so that its presence does not constitute a danger or hinder other Competitors. If the Driver is unable to drive the car from a dangerous position, it shall be the duty of the marshals to assist him. He may also be moved with help other than that of the marshals (i.e. any equipment, e.g. tractor, etc.) and re-join the race.

46.3 During the race, Drivers leaving the pit lane must do so only when the light at the pit lane exit is green and under their own responsibility. A marshal with a blue flag, or a blue flashing light, will also warn the Driver if cars are approaching on the track.

FULL COURSE YELLOW

46.4 Full Course Yellow

Should it be necessary for safety reasons, whenever a car is stopped in a dangerous location, whenever track vehicles are working near the track, marshals are working close to the track or other similar situations, the Race Director will declare a 'Full Course Yellow' period.

A 'Full Course Yellow' period will be deemed to be in operation from the moment a 'Full Course Yellow' countdown is declared on the Team Radio or on the timing monitors.

The message 'FCY' will be displayed on the monitors and the instruction 'Full Course Yellow' will be given on the Team Radio after a countdown.

Waved yellow flags and "FCY" boards will be shown at all marshal posts, at the Line and at pit exit. At this point, all cars must be at 80 km/h. Overtaking, except for safety reasons accepted as such by the Race Director or Stewards, is forbidden. Cars must proceed at a constant speed in single file.

Speeds will be monitored and any car exceeding the given speed will be reported to the Stewards and a penalty may be imposed.

The pit lane entry and exit will remain open but the pit entry and pit exit will be subject to a maximum speed of 80km/h. Cars entering the pit lane may overtake cars that are on the track once they cross Safety Car Line 1, subject to the speed restriction above. Cars exiting the pit lane may be overtaken by other cars until they reach Safety Car Line 2.

Once the problem is resolved, the track will return to Green and the information will be given on the monitors and Team radio. Alternatively, should the problem not be resolved, the Safety Car may be deployed according to Article 46.5 and 46.6

46.5 Safety Car

The Race Director will call for a Safety Car intervention whenever circuit vehicles are on the track, when cars need to be guided to avoid workers, when barriers are damaged, medical intervention is needed or other situations where it is deemed necessary.

46.6 Safety Car intervention after FCY

At the start of any Incident which may need the Safety Car to be deployed, a Full Course Yellow period may be declared before the Safety Car is deployed. In this case, the Safety Car will join the track, with its lights off, and will overtake the cars on track until it reaches the leader. It will then switch on its lights, and the SC boards will be shown. From this point onwards it will proceed according to Article 46.7.

46.7 Safety Car Procedure (in accordance with Appendix H of the ISC, Article 2.10, varied only in respect of the flag signals shown at the end of the intervention period which will be as detailed below.)

When the order is given to deploy the Safety Car, all marshal posts will display waved yellow flags and "SC" boards and the orange lights at the Line will be illuminated, for the duration of the intervention.

The Safety Car will start from its designated location with its orange lights illuminated and will join the track regardless of where the race leader is.

All the competing cars must then form up in line behind the Safety Car no more than five car lengths apart, and overtaking, with the following exceptions, is forbidden until the cars reach the Line after the Safety Car has returned to the pits.

Overtaking will be permitted under the following circumstances:

- If a car is signalled to do so from the Safety Car;
- Any car entering the pits may pass another car or the Safety Car after it has crossed the first Safety Car line;
- Any car leaving the pits may be overtaken by another car on the track before it crosses the second Safety Car line;
- When the Safety Car is returning to the pits or its intermediate position, it may be overtaken by cars on the track once it has crossed the first Safety Car line;
- Any car stopping in its designated garage area whilst the Safety Car is using the pit lane may be overtaken;
- If any car slows with an obvious problem.

Any car being driven unnecessarily slowly, erratically or in a manner deemed potentially dangerous to other Drivers at any time whilst the Safety Car is deployed will be reported to the Stewards. This will apply whether any such car is being driven on the track, the pit entry the pit lane or the pit exit.

When ordered to do so by the Race Director or, in his absence, his Deputy, or the Clerk of the Course, the observer in the Safety Car will use a green light to signal to any cars between it and the race leader that they

should pass. These cars will continue at reduced speed and without overtaking until they reach the line of cars behind the Safety Car.

The Safety Car shall be used at least until the car in the lead is behind it and all remaining cars are lined up behind the leader. Once behind the Safety Car, the race leader must keep within 5 car lengths of it and all remaining cars must keep the formation as tight as possible.

However, due to pit stops during the procedure, the Race Director may decide to restart without having all cars lined up behind the Safety Car.

While the Safety Car is in operation, competing cars may enter the pit lane, but may only rejoin the track when the green light at the end of the pit lane is on. It will be on at all times except when the Safety Car and the line of cars following it are about to pass or are passing the pit exit.

A car re-joining the track must proceed at an appropriate speed until it reaches the end of the line of cars behind the Safety Car.

Under certain circumstances, the Race Director or, in his absence, his Deputy or the Clerk of the Course may ask the Safety Car to use the pit lane. In this case, and provided its orange lights remain illuminated, all cars must follow it into the pit lane without overtaking. Any car entering the pit lane under these circumstances may stop at its designated garage area.

When the Race Director (or his Deputy or the Clerk of the Course in his absence) calls in the Safety Car, its orange lights will be extinguished; this will be the signal that it will be entering the pit lane at the end of that lap. At the moment the Safety Car switches off its lights, the yellow flags and "SC" boards (lights) at the marshal posts will be withdrawn. At this point, the first car in line behind the Safety Car may dictate the pace and, if necessary, fall more than five car lengths behind it. In order to avoid the likelihood of accidents before the Safety Car returns to the pits, from the point at which the lights on the car are extinguished, Drivers must proceed at a pace which involves no erratic acceleration, braking, or any other manoeuvre which is likely to endanger other Drivers or impede the restart. As the Safety Car is approaching the pit entry, waved green flags with green lights will be shown at the Line only. These will be displayed until the last car crosses the Line.

Each lap completed while the Safety Car is deployed will be counted as a race lap.

If the Safety Car is still deployed at the beginning of the last lap, or is deployed during the last lap, it will enter the pit lane at the end of the lap and the cars will take the chequered flag as normal without overtaking.

46.8 Starting the race behind the Safety Car

In exceptional circumstances, the race may be started behind the Safety Car. In this case, at any time before the one-minute signal, its orange lights will be turned on. This is the signal to the Drivers that the race will be started behind the Safety Car. When the green lights are illuminated, the Safety Car will leave the grid with all cars following in grid order no more than 5 car lengths apart. There will be no formation lap and the race will start when the green lights are illuminated.

If the Race Director determines that the race should start behind the Safety Car, the start procedure and countdown may be adjusted to ensure that, as far as is practicably possible, the green lights and, therefore, the race start, will be at the time scheduled in the Official Timetable for the Event.

Overtaking, during the first lap only, is permitted if a car is delayed when leaving its grid position and cars behind cannot avoid passing it without unduly delaying the remainder of the field. In this case, Drivers may only overtake to re-establish the original starting order.

Soon after the last car in line behind the Safety Car passes the end of the pit lane, the pit exit light will turn green; any car in the pit lane may then enter the track and join the line of cars behind the Safety Car.

Any Driver who is delayed leaving the grid should not overtake another moving car if he was stationary after the remainder of the cars had crossed the Line, and must form up at the back of the line of cars behind the Safety Car. If more than one Driver is affected, they must form up at the back of the field in the order in which

they left the grid. A penalty will be imposed on any Driver who, in the opinion of the Stewards, unnecessarily overtook another car during the first lap.

A Safety Car may be used as the Official Leading Car for a rolling start; in this case, the regulations governing the start will apply to it until it resumes its Safety Car function after the start has been given. Any driver delayed in this way who is unable to re-establish the original starting order before he has crossed Intermediate Timing Point 2 (the end of timing sector 2), or another location advised in the Race Director's briefing notes for the Event, must drop to the back of the grid and start the race from there.

47. SUSPENDING AND RESUMING THE RACE

47.1 Suspending the race

Should it become necessary to suspend the race because the circuit is blocked by an accident or because weather or other conditions make it dangerous to continue, the Race Director / Clerk of the Course will order red flags to be shown at all marshal posts and the abort lights to be shown at the Line.

When the signal is given, cars must slow to a maximum of 80 km/h and overtaking is forbidden. The pit exit will be closed and all cars must proceed slowly to the red flag line where they must stop in single file and will be placed under Parc Fermé conditions.

The Safety Car will be placed in front of the cars lined up behind the red flag line.

While the race is suspended:

- Subject to the approval of the Stewards and the constraints of the event timetable, the length of the race suspension may be added to the remaining time for the race,
- Only Officials are allowed on the grid
- The Drivers are allowed to get out of their cars, to remove helmets and gloves, but must remain with their cars
- No Driver changes are permitted
- The Drivers must obey the marshals' instructions at all times

a) For cars on the grid

All interventions on the cars are prohibited on the grid except for checks and pressure adjustments on the tyres. If conditions so warrant, Race Control may give permission to cover the car in case of rain or to allow the use of a maximum of two fans to cool the brakes in case of excessive heat. If permission is so granted, this may be carried out by a maximum of two Team members.

b) Any cars which were in the pits before the signal to suspend the race was given are also under Parc Fermé conditions and all work must stop when the red flag signal is given. Once the three-minute signal is given work may resume on these cars. At any point after the three-minute signal and before the green flag, any such car may move to the end of the pit lane and after the green flag may join at the back of the line of cars behind the Safety Car.

c) Any cars which entered the pit lane after the red flag signal was given must proceed to their working area under Parc Fermé conditions. Once the three-minute board is shown for the race to resume, work may commence on these cars. They may move to the end of the pit lane when the race has been resumed and may join at the end of the first lap after the race has been resumed. This also includes any cars pushed off the grid after the 10-minute signal.

47.2 Not in Use

47.3 Resuming the race

The delay will be kept as short as possible and as soon as a resumption time is known, Teams will be informed via the timing monitors, Team messaging and Team radio; in all cases at least ten minutes' warning will be given.

Signals will be shown five minutes, three minutes, one minute and fifteen seconds before the resumption, and each of these will be accompanied by an audible warning.

The Race Director, for safety reasons, may decide to authorise a tyre change from dry-weather to wet-weather tyres. If authorised, this must take place before the three-minute signal.

From the 5-minute signal, the cars on the grid are no longer under Parc Fermé conditions and Team members may access the grid only to assist the Driver, check tyres and brakes, bring and connect an external battery only for the purpose of restarting the engine and, if authorised by the Race Director, to change the tyres.

A Team may, with permission from the Race Director, remove a car from the grid. In this case, they will be allowed to rejoin the race with the cars according to Article 47.1 c).

When the three-minute signal is given, the cars must be resting on their wheels. After this signal, wheels may only be removed in the pit lane or on the grid during a further suspension of the race. A penalty will be imposed on any Competitor whose car was not resting on its wheels or did not have all its wheels tightened at the three-minute signal.

At some point after the three-minute signal, which will depend on the expected lap time, any cars between the red flag line and the leader will be waved off to complete a further lap, without overtaking, and join the line of cars behind the Safety Car.

For cars in the pit lane, the provisions of Article 47.1 b) and c) must be followed.

When the one-minute signal is given, engines will be started. All Team personnel must leave the grid by the time the 15-second signal is given, taking all equipment with them. If any Driver needs assistance after the 15-second signal, he must indicate this to the marshals and, when the remainder of the cars able to leave the grid have done so, marshals will be instructed to push the car into the pit lane. In this case, marshals with yellow flags will stand beside any car (or cars) concerned to warn Drivers behind.

Any Driver who is unable to start this lap must indicate this to the marshals. When leaving the grid, all Drivers must proceed at a greatly reduced speed until clear of any Team personnel standing beside the track. Marshals will be instructed to push any car (or cars) remaining on the grid into the pit lane by the shortest route as soon as all cars able to leave the grid have done so. Any Driver being pushed from the grid should not attempt to start the car and must follow the instructions of the marshals.

The race will be resumed behind the Safety Car when the green lights are illuminated. The Safety Car will enter the pits after one lap unless all cars are not yet lined up behind it, or the Safety Car may continue until the Race Director decides it is safe to resume the race.

When the green lights are illuminated, the Safety Car will leave the grid with all cars following, in the order in which they stopped behind the red flag line, no more than 5 car lengths apart. Soon after the last car in line behind the Safety Car passes the end of the pit lane, the pit exit light will turn green. Any cars which were in the pit lane before the red flag (Article 47.1 b)) may then enter the track and join the line of cars behind the Safety Car. Cars which entered the pit lane after the red flag (Article 47.1 c)) may move to the end of the pit lane after the race has resumed, and rejoin after the first lap behind the Safety Car.

Overtaking during this lap is permitted only if a car is delayed when leaving the red flag line and cars behind cannot avoid passing it without unduly delaying the remainder of the field. In this case, Drivers may overtake only to re-establish the order they were in before the race was suspended. Any driver delayed in this way who is unable to re-establish the correct order before he has crossed Intermediate Timing Point 2 (the end of timing sector 2), or another location advised in the Race Director's briefing notes for the Event, must drop to

the back of the grid and resume the race from there. During this lap, Article 2.10 of ISC Appendix H and Article 46.7 above will apply.

Any Driver who is delayed leaving the red flag line should not overtake another moving car if he was stationary after the remainder of the cars had crossed the red flag Line, and must form up at the back of the line of cars behind the Safety Car. If more than one Driver is affected, they must form up at the back of the field in the order in which they left the grid.

A penalty will be imposed on any Driver who, in the opinion of the Stewards, unnecessarily overtook another car during the first lap.

With the exception of cases where a red flag is deployed during the mandatory pit window (see Article 47.1), if the race cannot be resumed, the final classification will be that of the race order at the end of the penultimate lap before the lap during which the signal to suspend the race was given.

47.4 Not in use

47.5 A car which is judged by the Race Director and/or the Stewards to have been responsible for causing an incident or situation which resulted in a Red Flag may be given a penalty up to and including disqualification from the Race.

48. FINISH

48.1 The end-of-race signal will be given at the Control Line as soon as the leading car crosses it after the scheduled time has elapsed.

If the leader is stopped, the signal will be given as soon as the next-best placed car crossed the line (Article 5.3).

48.2 Should for any reason (other than under Article 47) the end-of-race signal be given before the scheduled time has elapsed, the race will be deemed to have finished when the leading car last crossed the Line before the signal was given. Should the end-of-race signal be delayed for any reason, the race will be deemed to have finished when it should have finished.

48.3 After receiving the end-of-race signal, all classified cars must proceed directly to the Parc Fermé without any unnecessary delay, without receiving any object whatsoever and without any assistance (except that of the marshals if necessary).

Any classified car which cannot reach the Parc Fermé under its own power will be placed under the exclusive control of the marshals, who will direct the car to the Parc Fermé.

49. PARC FERMÉ

49.1 Only those Officials responsible for supervision may enter the Parc Fermé. No intervention of any kind is allowed there unless authorised by such Officials. Pirelli representatives, listed on a Stewards Bulletin, may enter Parc Fermé in order to check tyre pressures.

49.2 When the Parc Fermé is in use, the area between the Line and the Parc Fermé entrance will be considered to be Parc Fermé as well.

49.3 The Parc Fermé shall be sufficiently large and secure so that no unauthorised persons can gain access to it.

49.4 Unless otherwise specified, the Parc Fermé will last for a maximum of one hour from the chequered flag for the qualifying session or either race. After this time, any cars which have not been chosen for further

examination by the Technical Delegate or ordered by the Stewards will be released by way of an official communication from the Race Director or Stewards via Team Radio and/or the Team Messaging application.

49.5 Requests for early release from Parc Fermé after qualifying or the race(s), due to exceptional circumstances, must be submitted in writing to the Stewards. For races, these requests will only be considered if the car is not, or will not be, classified.

50. CLASSIFICATION

50.1 The car placed first will be the one having covered the greatest distance in the scheduled time. All cars will be classified (subject to Article 50.3) taking into account the number of complete laps they have covered and, for those which have completed the same number of laps, the order in which they crossed the Line.

For the purposes of this Article only, the scheduled time means the period from the Official race start time up to and including the showing of the end-of-race signal in accordance with Article 48.1.

50.2 If a car takes more than twice the time of the winner's fastest lap to cover its last lap, this last lap will not be taken into account when calculating the total distance covered by that car.

50.3 Cars having covered less than 70% of the number of laps covered by the winner (rounded down to the nearest whole number of laps) will not be classified.

50.4 The final classification will be published and posted by the Organiser on either the Digital or the Official Notice Boards or both, as soon as possible after the race. These will be the only valid results, subject to any amendments which may be made under the Code and these Sporting Regulations.

51. PODIUM CEREMONY AND PRESS CONFERENCES

51.1 There will be a podium ceremony after every race. Where there are at least five cars entered in a category or Cup and at least three cars finishing, the drivers finishing in 1st, 2nd and 3rd positions and a representative of the winning Team must attend the prize-giving ceremony on the podium and abide by the podium procedure determined by the Promoter. When there are fewer than six cars entered or fewer than three cars finishing in a Category or Cup, but more than one, then only the winning drivers and Team representative will attend.

The podium will follow the protocol laid down by the Promoter.

Race

1: 1st, 2nd and 3rd Pro-Am

2: 1st, 2nd and 3rd Am

3: 1st, 2nd and 3rd, Silver

4: An Overall podium may be held if there are cars from different categories in the top three.

5: Winner of the Rookie Cup

6: Winner of the Ladies' Cup

51.2 The Competitors and Drivers undertake to comply with the instructions that they will be given concerning the podium ceremony. Any infringement will result in penalties at the discretion of the Stewards.

51.3 A fine will be imposed on any required Competitor who is absent for part or all of the podium ceremony, except in a case of force majeure recognised as such by the Stewards.

The Team Managers are responsible for ensuring that their Drivers fulfil their obligations.

A fine will be imposed on any Driver who is absent except in a case of force majeure recognised as such by the Stewards.

51.4 Not in use

51.5 Not in use

51.6 Not in use

51.7 Not in use

51.8 Media Obligations

Teams and Drivers are obliged to take part in any media activities which are included on the Official Timetable for the Event. Any Driver or Competitor who is absent may be reported to the Stewards who may, except in cases they recognise as force majeure, impose any penalty they consider appropriate.

DRAFT

APPENDIX 1: INFORMATION REQUIRED UNDER ARTICLE 10.

PART A

1. Name and address of the National Sporting Authority.	
2. Name and address of the Organiser.	
3. Date and place of the Competition	
4. Grade and expiry date of the License of the Circuit.	
5. Time of the administrative checks	Date and Time:
6. Start of the scrutineering	Safety Scrutineering: Technical Scrutineering:
7. Start of the Drivers' Briefing	Date and Time:
8. Location of the Drivers' Briefing	
9. Start of the Team Managers' Briefing	Date and Time:
10. Location of the Team Managers' Briefing	
11. Start time and duration of the races.	<u>Race 1:</u> <u>Race 2:</u>
12. Postal and e-mail addresses and telephone and fax numbers to which enquiries can be addressed.	
13. Details of the circuit, which must include:	
- Location and how to gain access	
- Length of one lap	
- Direction (clockwise or anti-clockwise)	
- Location of pit exit (in relation to the line)	
- Length of the pitlane	
- Pole Position (left/right)	
- Penalty area	
- Finish control line	
- Start Line (in relation to the control line)	
- Starting Signal	
- Starting Mode	Rolling Start
- Pit Lane Speed Limit	
- Maximum number of cars in compliance with the track licence allowed to take part in:	
14. Precise location at the circuit of:	
- Stewards' office	
- Race Director's office	
- Administrative checks	
- Scrutineering, flat area and weighing	
- Parc Fermé	
- Official Notice Board	
- Team Relations Office	

15. List of any supplementary trophies and special awards.	
16. The names of the following officials of the Event, appointed by the ASN:	
- National Steward	
- Clerk of the Course	
- Secretary of the Event

APPENDIX 5

SRO SPORTING BOARD – RULES AND REGULATIONS

INTERNAL REGULATIONS

Article 1 – Purpose

The SRO Sporting Board is a body set up by the Event Promoter, SRO Motorsports Group, the purpose of which is to manage certain aspects relating to the application of the sporting and technical regulations and the organisation of the GT4 European Event Events, other than those which fall within the exclusive remit of the Officials of the Event as defined by the provisions of the International Sporting Code.

Article 2 – Members

The SRO Sporting Board at each Event will consist of the following people or their representatives:

- The Permanent Chairman of the Stewards of the GT4 European Event
- The Race Director
- The SRO Technical Director
- The SRO Sporting Director
- The Event General Manager
- An RACB Representative.

Article 3 – Missions

The tasks of the SRO Sporting Board will include:

- Issuing clarifications on the regulations and their interpretation
- Taking decisions on the application of the regulations at the Events, in order to respond to specific situations (e.g. shortening of grid procedures, Timetable issues)
- Responding to any situations involving the commercial management of the Event
- Deciding on the acceptance of requests for private testing including coaching and participants of other Event, and on any penalties or restrictions in the GT4 European Event.
- Deciding penalties for drivers with derogations or drivers racing alone
- Deciding on exemptions for Driver Categorisations
- Deciding on any questions concerning points or the classification of the Event including attribution of the point for fastest lap in qualifying in case of penalty.

Article 4 – Meetings

Meetings of the SRO Sporting Board can be called at any point during an Event or can be convened by email between Events.

Decisions will be taken by majority agreement of the members. Two or more members may be authorised to take decisions on matters of derogations or permissions on behalf of the Board.

Article 5 – Right of Protest

Decisions taken by the SRO Sporting Board are final and not subject to protest or appeal.

SRO TECHNICAL BOARD – RULES AND REGULATIONS

INTERNAL REGULATIONS

Article 1 – Purpose

The SRO Technical Board is a body set up by the Event Promoter, SRO Motorsports Group, the purpose of which is to manage certain aspects relating to the application of the Technical Regulations, other than those which fall within the exclusive remit of the Officials of the Event as defined by the provisions of the International Sporting Code.

Article 2 – Members

The SRO Technical Board will consist of the following people or their representatives:

- The Chairman of SRO
- The SRO Technical Director
- An RACB Representative.

Article 3 – Missions

The tasks of the SRO Technical Board will include:

- Adaptations and Changes to the Balance of Performance
- Issues of eligibility of cars
- Issuing Technical Notes to the Competitors

Article 4 – Meetings

Meetings of the SRO Technical Board can be called at any point during an Event or can be convened by email between Events.

Decisions will be taken by majority agreement of the members.

Article 5 – Right of Protest

Decisions taken by the SRO Technical Board are final and not subject to protest or appeal.

SRO MOTORSPORTS FUND

INTERNAL REGULATIONS

Article 1 – Purpose (as authorised by RACB further to Article 12.8.3 of the Code)

All money collected in the form of fines from Competitors entered in the GT4 European Event will be placed in a Fund, the SRO Motorsports Fund.

This Fund will be returned to the Competitors in the form of a Prize Fund and/or will be presented to a Charity.

The usage of the Fund in any given year will be announced to the Teams by means of a Bulletin from the Sporting Board.

Article 2 – Administration

The SRO Motorsports Fund will be managed by the Chief Operating Officer of SRO Motorsports Group. The balance of the account may be requested in writing at any time.

APPENDIX 6 – Not in Use

APPENDIX 7

MANDATORY TECHNICAL EQUIPMENT – SUPPLIER DETAILS

TYRES

PIRELLI is the sole tyre supplier for the 6 Ore di Roma

All tyres must be pre-ordered. The digital ordering form can be found on the website.

Completed forms must be sent by the e-mail to Jonathan Wells - jonathan.wells@pirellif1.com, Steve Elkington steve.elkington@protyre.co.uk and sales@protyremotorsport.co.uk.

DATA LOGGER

The data logger is available from:

Emotag e.K Matthias Holle
Robert-Bosch-Str 22 * 65582 Diez (Germany)
Mail: emotag@mathol.de
Phone: +49 6432 9197 0
Fax: +49 6432 9197 44
Mobile: +49 177 8187 226

Rental cost for the Event : €1255 excl VAT for Turbo cars

€1160 excl VAT for non-Turbo cars

FUEL

Please note that TotalEnergies-Elf is the Official Fuel Supplier for the 6 Ore di Roma

Teams must pre-order and pay their racing fuel, through a web portal, <https://racing-shop.totalenergies.com>, where you will also need to input all your invoicing details. Please note that fuel orders must be received at the latest two weeks prior to each event. All orders must be done through the web portal – orders placed by mail won't be accepted.

Please find in the Team Section of the website more information in regards to the correct order process and other tips, for example, you can print the pro-forma invoice directly from your online account. This procedure will be valid for all the race weekends. You must separate volume requirements for each event but you can order various events at the same time in advance if you wish.

The 2023 fuel is ELF Core 50

TIMING TRANSPONDER AND OTHER TIMING EQUIPMENT

Each car must be fitted with the Sporting pack which includes :

- 1 multi-driver transponder
- 1 OLED screen
- 1 antenna
- 1 LED screen
-

GPS

A deposit may be requested from the supplier

1 GPS Atlas Module 2.4 - Ref : ATLASM

1 WIFI Antenna WIFI - GPS - Ref : ATLASM

1 power cable for the GPS module - Ref: ATLASM-CA

The ATLAS GPS must be intalled in according with the technical details supplied.

The sporting pack and the GPS must be ordered from ITS Chrono.

ONBOARD CAMERAS (ARTICLE 28.6)

All cars must be fitted with a suitable camera, which must be checked by the Scrutineers for safety purposes.

DRAFT

APPENDIX 8

RACE CONTROL FREQUENCIES

The following are provisional Race Control frequencies for the 2023 season.

Ch	RX Frequency	TX Frequency	Ch Type	TX Mode	QT/DQT Dec	QT/DQT Enc	RAN Dec	RAN Enc	Channel Name	Ch Spacing (Analog)
1	468.187500		Analog	Analog	D343N	None	---	---	RACE CONTROL 7	Narrow
2	468.375000		Analog	Analog	D343N	None	---	---	RACE CONTROL 8	Narrow
3	468.275000		Analog	Analog	D343N	None	---	---	RACE CONTROL 9	Narrow
4	468.375000		Analog	Analog	D343N	None	---	---	RACE CONTROL 10	Narrow
5	468.381250		Analog	Analog	D343N	None	---	---	RACE CONTROL 11	Narrow

The frequency used at the Event will be announced as soon as possible-

APPENDIX 9

OBLIGATIONS FOR TELEVISION

All cars must be ready to be fitted with a television onboard camera when so requested.
For this, Teams will need to provide 12V @ 5Amps on a Superseal 2-way plug part number: 282080-1, connector manufacturer: TE Connectivity.

This will need to be provided in the passenger foot well with the following pin out:

Pin 1 +12V

Pin 2 Gnd

Teams will need to provide a hole in the roof of the car (wherever possible). The position of this is to be agreed with the TV technicians for the camera transmitter. Once the onboard cameras have been installed, Teams must request permission from SRO TV to move the camera. The onboard cameras supplied by SRO TV cannot be obstructed.

The Pirelli sticker will be provided by TV and should not be reproduced by Teams.

AVAILABILITY OF TEAM PERSONNEL DURING SESSIONS

For purposes of television coverage, it is requested that Team personnel and co-Drivers should, whenever possible, watch the race on the pit wall or in the front sections of the garages, within reach and sight of the pit lane TV cameras. This is to enhance the viewing experience by allowing the reactions to be seen.

APPENDIX 10

USE OF THE CAMERA IMAGES

The images from the cameras may be used in the following cases:

On request of an Official

An Official of the Event may request that the images relating to any car or Team be examined after the race. In this case, the Pit Lane Official will recover the images and give them to the Stewards who may impose penalties for any breaches of regulations. Any such cars will be placed under investigation.

On request of a Team

In case of a report from a Pit Lane Marshal, the Team may challenge the report and request that the images should be examined. In this case, the Pit Lane Official will check the images after the chequered flag. Should the images confirm the Pit Marshal's report, an additional penalty may be given.

Important: no Team may request that the images of a specific car be examined without making a formal protest to the Stewards according to the International Sporting Code.
